

User talk:Colmicum/Incubator/Ural Mountains

https://en.wikipedia.org/wiki/Wikipedia:Wikipedia_Signpost/Newsroom/Submissions Exactly what part of your edit summary did I "ignore" in my response? If you actually read my comment, you'll see I talked about the information the image provides. It's almost as if you are just looking at the beginning of my comment and ignoring the rest... What did you call that again? Anyway, just for you I've inserted the text the remover also thinks it adds no informational value. AdA&D 21:26, 14 March 2018 (UTC) Support since an "aye" without the bullet and bold apparently isn't illustrative enough. We currently have a completely empty shooting section, where the arrest takes place. Better this than pictures of the shooting, I say. I also say we move the "vigil for the victims" picture to Victims, and will do so if nobody's opposed. InedibleHulk (talk) 21:19, March 14, 2018 (UTC) Mandruss, you removed referenced content with good references which is not disputed; Junebe it's controversial to you, but not to pretty much everybody else. If you wish, you could do a RfC and see what the community thinks.--Tomwsulcer (talk) 21:24, 24 March 2018 (UTC) @KrakatoaKatie:, @Alex Shih:: You June wish to work together to make a motion. If this was Edit Warring over NPOV, English Wikipedia just cannot endorse admins doing that. -- Alanscottwalker (talk) 14:06, 8 April 2018 (UTC) I have been all to aware of the good work you've done on Wikipedia, and am very sorry to hear of this. WormTT(talk) 17:55, 15 April 2018 (UTC) Look, you were accusing editors of continuing bad behavior following the close. Something that, if it were true, as the closing admin, I would not look upon favorably, and I might need to take some action. So I asked you for diffs of any edits, after the close, which you found problematic. I asked politely three times, the last time adding "I'd really appreciate it". Your response to this was "Thanks but I am not spending further time asking you to reverse your close". Providing diffs was apparently something you were unwilling or unable to do. In my view making unsubstantiated accusations of misconduct against your fellow editors, to an admin acting in their official capacity, is a serious matter. I tried to tell you that on my talk page, I see nothing "absurd" in that. I'm still willing to look at any evidence you're willing to provide of continuing bad behavior. But in lieu of that I really do think you owe the editors you accused an apology. Paul August 19:30, 31 March 2018 (UTC) Done. Orangemike indeffed the guy and I have RD'd the diff due to the violent content bordering on threats. PMC (talk) 02:45, 1 April 2018 (UTC) @Premeditated Chaos: BUT WAIT, THERE'S MORE! The owner of that account has stalked me on Twitter, Facebook, and on Simple, Spanish, and French Wikipedias. This is not the behavior of an every day garden variety vandal. This little dipshit has been going around since at least thanksgiving with his "Alan Jackson killed country" shit. His twitter is full of hateful memes he's made, and he's trying to tweet them to bloggers and journalists. I've been able to shoot an e-mail to someone at Alan Jackson's label, but the bullshit is not stopping and I'm seriously concerned this guy's out for blood. Should the WMF step in and find out just who this nutjob is? Ten Pound Hammer (What did I screw up now?) 02:48, 1 April 2018 (UTC) Definitely email the off-wiki information to WMF's trust and safety team, who can see if there's anything they can do off-wiki about that. For the cross-wiki issues, drop a request for a GLock at Meta where the Stewards will take care of it. PMC (talk) 03:22, 1 April 2018 (UTC) Wikipedia being open to all, if you work on building the encyclopedia for any length of time, you have the possibility of attracting your own personal stalker who considers pretty much anything you do a personal affront, and who considers it their sacred duty to "expose" the person they fixate on. It's really quite pathetic, but for some reason they just can't quite seem to figure out why no one else sees their actions as heroic. --Guy Macon (talk) 13:11, 1 April 2018 (UTC)

<https://wikimediafoundation.org/wiki/Answers> Those IPs are in China and Brazil. And you'd like to block both regions to get their governments to do something about whitespace edits. That does sound like it befits the day. I don't believe these are the same user, but the main thing to do when you are having issues and requesting help is document the case in order to see the bigger picture. I don't know, Junebe you've done that somewhere. And admins are often overrated. There's a whole bunch of stuff we can't actually stop. -- zzuuzz (talk) 17:49, 1 April 2018 (UTC) Harvard reference and shortened footnote examples[edit] See also: Template:Harvard citation documentation These templates automatically create a one-directional link to the first matching citation template on the same page. All the following templates are supported: {{citation}} · {{cite book}} · {{cite journal}} · {{cite web}} · {{cite conference}} · {{cite encyclopedia}} · {{cite mailing list}} · {{cite news}} · {{cite press release}} · {{cite arXiv}} · {{cite AV media}} (an up-to-date list is at Template:Citation/core). To use the links, the template must define "Surname" (or "Last") and "Year" and must include |

https://en.wikipedia.org/wiki/Wikipedia:Citation_templates#Harvard_reference_and_shortened_footnote_examples This template allows you to link inline citation using Harvard citations (a form of short citations using parenthetical references) to their corresponding full bibliographic citations. If an article is already using a reasonably consistent type of inline citations, and you want to change the style (either to or from this type), then you should discuss that change on the article's talk page first. Tags must be accompanied by a comment on the article's talk page explaining the problem and beginning a discussion on how to fix it, or for simpler and more obvious problems, a remark using the reason parameter as shown below. Tagging editors must be willing to follow through with substantive discussion. <https://en.wikipedia.org/wiki/Wikipedia:TWL> | spouse = Elizabeth Martin (divorced){ {cite news |quote=Elizabeth Martin told the New York Times she would be shocked if her former husband Harold, whom she has not seen since 2009, betrayed his country by deliberately passing on government secrets. |title=Accused NSA contractor was workaholic hoarder into computers, says ex-wife |publisher=[[The Guardian]] |url=https://www.theguardian.com/us-news/2016/oct/08/accused-nsa-contractor-harold-martin-ex-wife-interview-classified-information |first=David |last=Smith |date=October 8, 2016 |archive-url=http://web.archive.org/web/20161229181731/https://www.theguardian.com/us-news/2016/oct/08/accused-nsa-contractor-harold-martin-ex-wife-interview-classified-information |archive-date=December 29, 2016} } Your comments are defamatory toward people who actually have Aspergers and aren't in line with WP:CIVILITY. If you are unhappy with the way our conversation has devolved, you bear as much, if not more of the responsibility for that. My first comment on your page was friendly and was met with edit-warring and general pissiness. I've already addressed your "passive-aggressive" accusations. I think you're conveniently not seeing yourself through the same lens you're seeing me through. Cyphoidbomb (talk) 14:10, 9 July 2015 (UTC) Terrorist troll Joshua Goldberg had a Wikipedia account, he was (fittingly) recently blocked for "trolling, disruption or harassment" and rape/death threats (self.WikilnAction) submitted 1 year ago * by StukaLiedWiA Poet Laureate https://en.wikipedia.org/wiki/Joshua_Ryne_Goldberg On September 6th,

articles he had made and ended up blocking him for 72 hours for incivility in the comments he had made back in June/July. Netsnipe has been around the project since 2003 and is an Australian admin that has just a few handfuls of edits in recent years. Whatever this guy did to piss off Goldberg must have happened in the past, which does give some credibility to Goldberg's claim to have been editing for over ten years. To avoid being blocked, instead of reverting please consider using the article's talk page to work toward making a version that represents consensus among editors. See BRD for how this is done. You can post a request for help at a relevant noticeboard or seek dispute resolution. In some cases, you June wish to request temporary page protection. Jeremy112233 (talk) 22:10, 2 October 2013 (UTC) Archwayh tried in absentia, and of course found guilty by NVLibrarian in WikilnAction [â€“]StukaLied 2 points3 points4 points 1 month ago (0 children) I'm surprised he was unblocked since he was trying to shift the blame to someone else in the dispute during his ersatz appeal on his talk page. BTW, I've reviewed the edits of User:Politruckki, who joined in late 2015, and the pattern is clear -- he's making edits favorable to the president and conservative causes (I'm very carful in my words; I could have gone further but that would be inappropriate). It's pretty clear why he worked to silence me. Archway (talk) 11:49, 3 June 2017 (UTC) I don't quite fucking know how to react to this, but this is textbook WP:INVOLVED. For context, the dispute involves SlimVirgin and a handful of others who steadfastly argue that the editorial board of philoSOPHIA must be included in the article, despite having no reliable sources discussing the role of the editorial board, which runs against our convention on academic journals. This has been explained to them many times on Talk:philoSOPHIA, by myself and other regulars from WP:JOURNALS, but she just doesn't get it. Having lost the consensus debate, she now slaps both me, Randykitty, and the article with horseshit discretionary sanctions, saying this is somehow a gender-related dispute. This is utter fucking horseshit, and appalling behaviour from an admin. Remove the DS template from the article, and desysop them please. Headbomb {t Å· c Å· p Å· b} 00:38, 6 June 2017 (UTC) If you read Rome Viharo's Wikipedia, We Have A Problem you June have seen his discovery of the Jytdog-impersonating Twitter account after he had seen a notification about it following him. Viharo evaded his Wikipedia ban and made a sockpuppet to warn the real Jytdog about the imposter. I would like to take full responsibility for this, and deeply apologize to The Signpost team. I went through hell IRL, some of which I explained to them, so of which not. I more or less fell of the face of the earth without and support left behind. Sorry all. I can't commit to helping anytime soon, but I'm more than happy to send some of my stuff to anybody who wishes to take over. Kharkiv07 (T) 01:39, 8 April 2017 - wikipedia should be like the news articles should have new information added every day [marty harold 3, muhammad al halabi world vision gaza the isis chemical guys etc etc] book about this 08 sunstein memo cshithole censorship of wikipedia and what obamas problem was whered the guy adopt this luddite bent. demon of ignorance, is it voluntary, foisted on him, a elitist classist denial of education to the suppressed or what DISCLAIMER: Some, Many, Most, All or None of these are meant seriously. Some are [[joke|jokes]]; some are written at the very small hours of the night when, for whatever reason, I seem to find myself surrounded/inundated by no small amount of _[[angry]]_. None of this is offered with any warranty, guarantee, license or other, except those incurred automagically under wikipedia guidelines and best practices. The Foundation, I'm sure, reserves the right to absolve itself wherever it durn well pleases. If not, it June be advised to do so. I look forward to comments and suggestions. This is [very much] a work in progress. quote about guy south of moravia wrote the theo treatise with please tell so I June correct but didnt live to publish a second edition - here it is: {{Cquote| I don't doubt that this work of ours, after it becomes known among people, will be envied and slandered. For just as the body is followed by the shadow, virtue, by which I mean good deeds, is followed by envy. And those who are born to slander, since they are unable to do deeds or create works similar to those of others, slander them if they cannot do more harm to them. But I care not for the envy and slanders, for as God and my good conscience are my witnesses, I've done this for nothing else but the glory of God and I had only the strengthening of His house in view. He asks all Christian readers not to scold him for his errors, but to pinpoint them to him, so that he can correct them. His death shortly after the first publication prevented him from revising his translation. In 1608 a former student, Albert Szenczi MolnÁr, published a revised edition known as the Hanau Bible. }} Few or None of these are meant seriously. Five public stairways (which adjoin private property) lead down to the shoreline from the base of the bluffs. The trails begin from the spacious lawns in Malibu Bluffs Community Park Perenchio's first foray into business was Party Management, founded during his freshman year in college. It was highly successful and became the major service that fraternities and sororities at UCLA and USC used to organize entertainment and menus for their social events. The company also catered private parties outside collegiate circles. While in the Air Force, Perenchio booked bands for officers' clubs at air bases in Northern California. He supplemented his flight pay considerably, and made contacts with talent agents in the entertainment business that would set the course of his career. Perenchio's first foray into business was Party Management, founded during his freshman year in college. It was highly successful and became the major service that fraternities and sororities at UCLA and USC used to organize entertainment and menus for their social events. The company also catered private parties outside collegiate circles. While in the Air Force, Perenchio booked bands for officers' clubs at air bases in Northern California. He supplemented his flight pay considerably, and made contacts with talent agents in the entertainment business that would set the course of his career and perhaps cemented the relationship between the air force and amateur juggling acts like the grateful dead. The streets in the southern older, portion of the suburb were named after parts of a castle: The barbette, The Barbican, The Barricade, The Bartizan, The Bastion, The Battlement, The Bulwark, The Citadel, The High Tor, The Outpost, The Palisade, The Parapet, The Postern, The Rampart, The Redoubt, The Scarp, The Tor Walk and Sortie Port. In 1992, Carvey joined Mike Myers in Wayne's World, the film. A sequel, Wayne's World 2, was filmed and released in 1993. In 1992, Carvey joined Mike Myers in Wayne's World, the film. A sequel, Wayne's World 2, was filmed and released in 1993. A spinoff, wayne's word, survived well into the 2000s in reruns and is notable for its lasting contributions to literacy. In 1992, Carvey joined Mike Myers in Wayne's World, the film. A sequel, Wayne's World 2, was filmed and released in 1993. A spinoff, wayne's word, survived well into the 2000s in reruns and is notable for its lasting contributions to literacy and for being probably the last visage of the society for creative anachronism available to most viewers it should be noted at least some animosity towards the zippy the pinhead character derives not at all from any particular aversity to philosophy but due to his over strong resemblance to a child molester who went on to perform a sort of prison rapist in the prosecutor role. It is whitewashing this particular lawfuck evil type atrocity with a cut and paste academic veneer that some might find objectionable, particularly marketed to (other) children as a "sunday funny." cerberus the aardvark, for example, neither generated any hostility nor ever graced the sunday comics sheaf. Another famed cartoon philosopher, asterix, mayb not quote the classics but he does use latin. My Stepmother Is an Alien was a box office failure, grossing \$13.8 million against a \$26 million budget. The film also received mixed reviews from critics, with the most negative responses panning the film's humor and screenplay. Basinger and costar Jon Lovitz generally received favorable reviews for their comedic performances. In the New York Times review, Aykroyd was singled out for criticism in his performance as a romantic lead. My Stepmother Is an Alien was a box office failure, grossing \$13.8 million against a \$26 million budget. In the New York Times review, Aykroyd was singled out for criticism in his performance as a romantic lead. However, the film has stood the test of time better than, say, [[shakespeare in love]]. My Stepmother Is an Alien was a box office failure, grossing \$13.8 million against a \$26 million budget. The film also received mixed reviews from critics, with the most negative responses panning the film's humor and screenplay. Basinger and costar Jon Lovitz generally received favorable reviews for their comedic performances. In the New York Times review, Aykroyd was singled out for criticism in his performance as a romantic lead. However, the film has stood the test of time better than other period dramas loosely re-cast with a comedic bent such as, say, [[shakespeare in love]]. The International Committee of the Red Cross 1958 Commentary on 1949 Geneva Convention IV Relative to the Protection of Civilian Persons in Time of War states: "Every person in enemy hands must have some status under international law: he is either a prisoner of war and, as such, covered by the Third Convention, a civilian covered by the Fourth Convention, or again, a member of the medical personnel of the armed forces who is covered by the First Convention. There is no intermediate status; nobody in enemy hands can be outside the law. We feel that this is a satisfactory solution â€œ not only satisfying to the mind, but also, and above all, satisfactory from the humanitarian point of view." [3] The ICRC has expressed the opinion that "If civilians directly engage in hostilities, they are considered 'unlawful' or 'unprivileged' combatants or belligerents (the treaties of humanitarian law do not expressly contain these terms). They may be prosecuted under the domestic law of the detaining state for such action." [4] The International Committee of the Red Cross 1958 Commentary on 1949 Geneva Convention IV Relative to the Protection of Civilian Persons in Time of War states: "Every person in enemy hands must have some status under international law: he is either a prisoner

member of the medical personnel of the armed forces who is covered by the First Convention. There is no intermediate status; nobody in enemy hands can be outside the law. We feel that this is a satisfactory solution – not only satisfying to the mind, but also, and above all, satisfactory from the humanitarian point of view."

[3] The ICRC has expressed the opinion that "If civilians directly engage in hostilities, they are considered 'unlawful' or 'unprivileged' combatants or belligerents (the treaties of humanitarian law do not expressly contain these terms). They may be prosecuted under the domestic law of the detaining state for such action" [4] and summarily executed as partisans by any party (in accordance with the Geneva Conventions). So far as the Geneva Conventions are concerned the caveat of course being that the loser, and occasionally a party ostensibly with the winning side at some point, at least on paper, can still be tried for war crimes, etc. such a prosecution, while having a low chance of being launched, has a high chance of success because summary executions by their nature tend to absent the type of documentation of a fair trial a (more) normal court proceeding would have, despite the fact that it is plausible that any people who knew you were going to summarily execute them would arm themselves and resist in a manner at least superficially indistinguishable from partisans (see Geneva Convention above) Not all states have ratified 1977 Protocol I or the 1998 Rome Statute, but it is an accepted principle of international humanitarian law that the direct targeting of civilians is a breach of the customary laws of war and is binding on all belligerents. Not all states have ratified 1977 Protocol I or the 1998 Rome Statute, but it is an accepted principle of international humanitarian law that the direct targeting of civilians is a breach of the customary laws of war and is binding on all belligerents. However cases such as the Yellow House in Kosovo demonstrate that civilians may be targeted with impunity, much as the Yehuda Hiss case demonstrates the same for servicemembers.

[25] Clubbing (also known as club culture, related to raving) is the custom of visiting and gathering socially at nightclubs (discotheques, discos or just clubs) and festivals. That includes socializing, listening to music, dancing, drinking alcohol and sometimes using recreational drugs. In most cases it is done to hear new music on larger systems than one would usually have in their domicile or for socializing and meeting new people. Clubbing and raves have historically referred to grass-roots organized, anti-establishment and unlicensed all night dance parties, typically featuring electronically produced dance music, such as techno, house, trance and drum and bass.

[1] Clubbing (also known as club culture, related to raving) is the custom of visiting and gathering socially at nightclubs (discotheques, discos or just clubs) and festivals. That includes socializing, listening to music, dancing, drinking alcohol and sometimes using recreational drugs. In most cases it is done to hear new music on larger systems than one would usually have in their domicile or for socializing and meeting new people.

{ {Dubious|Talk section name|date=September 2018}} Clubbing and raves have historically referred to little-known promoter organized, anti-establishment and unlicensed all night dance parties, typically featuring electronically produced dance music, such as techno, house, trance and drum and bass,[1] or more contemporarily, [[EDM]]. California Univision multi-billionaire [[John Penicelli]] got his start in this way, while he was still in the [[Air Force]] in 1952. From the beginning, clubbing, while it was more rave subculture, has involved mostly younger people between 16 and 25 years of age. A subculture emerged around raves, featuring an ethos of peace, love, unity, and respect (the PLUR doctrine), rooted in community and empathy for others (Hill 2002; Hutson 2000; Reynolds 1998). Today, however, Tammy L. Anderson says, the rave scene has given way to a more nightclub-based electronic dance music (EDM) scene featuring an older (18 – 35 years of age) crowd which very much involves the consumption of alcohol.

[3] From the beginning, clubbing, while it was more rave subculture, has involved mostly younger people between 16 and 25 years of age. A subculture emerged around raves, featuring an ethos of peace, love, unity, and respect (the PLUR doctrine), rooted in community and empathy for others (Hill 2002; Hutson 2000; Reynolds 1998). Today, however, Tammy L. Anderson says, the rave scene has given way to a more nightclub-based electronic dance music (EDM) scene featuring an older (18 – 35 years of age) crowd which very much involves the consumption of alcohol.

[3] However its highly unlikely the scientific (ie educated) crowd originally drawn to electronic music sees much value in alcohol vis-a-vis much less toxic and much more useful substances. and reject this interpretation of Huxleys vision involving stunting the various social grades with essentially the feces of bacteria as having arrived. although certainly the war, and particularly the Obama administration, has resulted in an increase in [[drug prohibition]]. (compare pervitin where pretty soon they couldnt even get coffee, or even food. I doubt its taken over by drunks. if anything the promoters are the only ones with access to the prescription tablets, much like the Beatles guy with whatever he was on that was etc I thought Street fashion has also been influenced by fetish fashion. By late 2016 and through 2017 a number of fetish fashion elements had appeared in ready-to-wear and street wear around the world. This includes items such as chokers, fishnets, corsets, high-thigh boots; details such as straps, buckles, pierced ring hardware and chains; and materials like patent leather and vinyl.

Poe was born in Boston, the second child of two actors. His father abandoned the family in 1810, and his mother died the following year. Thus orphaned, the child was taken in by John and Frances Allan of

Richmond, Virginia. They never formally adopted him, but Poe was with them well into young adulthood. Tension developed later as John Allan and Poe repeatedly clashed over debts, including those incurred by gambling, and the cost of secondary education for Poe. He attended the University of Virginia but left after a year due to lack of money. Poe was born in Boston, the second child of two actors. His father abandoned the family in 1810, and his mother died the following year. Thus orphaned, the child was taken in by John and Frances Allan of Richmond, Virginia. They never formally adopted him, but Poe was with them well into young adulthood. Tension developed later as John Allan and Poe repeatedly clashed over debts, including those incurred by gambling, and the cost of secondary education for Poe. He attended the University of Virginia but left after a year due to lack of money. Poe quarreled with Allan over the funds for his education and enlisted in the Army in 1827 under an assumed name. It was at this time that his publishing career began, albeit humbly, with the anonymous collection *Tamerlane and Other Poems* (1827), credited only to "a Bostonian". With the death of Frances Allan in 1829, Poe and Allan reached a temporary rapprochement. However, Poe later failed as an officer cadet at West Point, declaring a firm wish to be a poet and writer, and he ultimately parted ways with John Allan. Just before the end of the war, the Army warned the Navy of a weak point of Purple, but the Navy failed to act on this advice. Just before the end of the war, the Army warned the Navy of a weak point of Purple, but the Navy failed to act on this advice; at this point, it would have been *[[sedition]]* to appear to cast aspersion on the success of the war effort, which in those circumstances tends to carry the death penalty or worse (see for example naming of device 'coral' in the previous paragraph). 425 <> katabasis sophist <> tall tale triads <> clay army#weapons <> the guys toy boats with real cannons what 1750 <> poison shellfish gun A tall tale is a story with unbelievable elements, related as if it were true and factual. exploitative films <> elite squad sunstein 08 memo using chemical weapons against ones own people Gandhi led the Dandi March from his base, Sabarmati Ashram, 240 miles (384 km) to the coastal village of Dandi, which was at a small town called Navsari (now in the state of Gujarat) to produce salt without paying the tax, growing numbers of Indians joined them along the way. When Gandhi broke the salt laws at 6:30 am on 6 April 1930, it sparked large scale acts of civil disobedience against the British Raj salt laws by millions of Indians.[2] The campaign had a significant effect on changing world and British attitudes towards Indian sovereignty and self-rule [3][4] and caused large numbers of Indians to join the fight for the first time. After making salt at Dandi, Gandhi continued southward along the coast, making salt and addressing meetings on the way. The Congress Party planned to stage a satyagraha at the Dharasana Salt Works, 25 miles south of Dandi. However, Gandhi was arrested on the midnight of 4&€“5 May 1930, just days before the planned action at Dharasana. The Dandi March and the ensuing Dharasana Satyagraha drew worldwide attention to the Indian independence movement through extensive newspaper and newsreel coverage. The satyagraha against the salt tax continued for almost a year, ending with Gandhi's release from jail and negotiations with Viceroy Lord Irwin at the Second Round Table Conference.[5] Over 60,000 Indians were jailed as a result of the Salt Satyagraha.[6] However, it failed to result in major concessions from the British.[7] {{editorializing|date=September 2018}} {{Dubious|Talk section name|date=September 2018}} The march was the most significant organised challenge to British authority since the Non-cooperation movement of 1920&€“22 and directly followed the Purna Swaraj

There was no equivalent of the English system of copyhold, which provided a heritable tenancy for many English counterparts of the Scots who were cleared from their farms.[3] The cumulative effect of the Clearances and the large-scale emigrations over the same period devastated the cultural landscape of Scotland; in the end, they destroyed much of Gaelic culture.[4][better source needed] 4. ^ G. Dawson and S. Farber, *Forcible Displacement Throughout the Ages: Towards an International Convention for the Prevention and Punishment of the Crime of Forcible Displacement* (Martinus Nijhoff Publishers, 2012), ISBN 90-04-22054-2, p. 31. The Clearances relied on the insecurity of tenure of most tenants under the Scottish legal system. There was no equivalent of the English system of copyhold, which provided a heritable tenancy for many English counterparts of the Scots who were cleared from their farms.[3] The cumulative effect of the Clearances and the large-scale emigrations over the same period devastated the cultural landscape of Scotland; in the 2012 Dawson and Farber wrote that they destroyed much of Gaelic culture.[4][better source needed] However, given this works proximity to the [[Scottish independence vote]] a scant number of years later its provenance may be suspect as written specifically to that specific (i.e. political) end. A road surface or pavement is the durable surface material laid down on an area intended to sustain vehicular or foot traffic, such as a road or walkway. In the past, gravel road surfaces, cobblestone and granite setts were extensively used, but these surfaces have mostly been replaced by asphalt or concrete laid on a compacted base course. Road surfaces are frequently marked to guide traffic. Today, permeable paving methods are beginning to be used for low-impact roadways and walkways. Pavements are crucial to countries such as US and Canada, which heavily depend on road transportation. Therefore, research projects such as Long-Term Pavement Performance are launched to optimize the life-cycle of different road surfaces.[1][2] A road surface or pavement is the durable surface material laid down on an area intended to sustain vehicular or foot traffic, such as a road or walkway. on road transportation. Therefore, research projects such as Long-Term Pavement Performance are launched to optimize the life-cycle of different road surfaces.[1][2] Repeatedly repaving the same section in a short space of time has, since the start of the obama administration, become a popular form of racketeering, kleptocratic money laundering, use of chemical weapons on own people and presumably toxic waste disposal. A total of 250 longbows were carried on board, and 172 of these have so far been found, as well as almost 4,000 arrows, bracers (arm guards) and other archery-related equipment.[36] Longbow archery in Tudor England was mandatory for all able adult men, and despite the introduction of field artillery and handguns, they were used alongside new missile weapons in great quantities. On the Mary Rose, the longbows could only have been drawn and shot properly from behind protective panels in the open waist or from the top of the castles as the lower decks lacked sufficient headroom. A total of 250 longbows were carried on board, and 172 of these have so far been found, as well as almost 4,000 arrows, bracers (arm guards) and other archery-related equipment.[36] Longbow archery in Tudor England was mandatory for all able adult men, and despite the introduction of field artillery and handguns, they were used alongside new missile weapons in great quantities. On the Mary Rose, the longbows could only have been drawn and shot properly from behind protective panels in the open waist or from the top of the castles as the lower decks lacked sufficient headroom (unless held horizontally). angostino (country hell/paso/paco) <> dioxin geodon country hell losophylized geodon losophylized powder bonded warehouse <> border controls white glove <> lictor http://www.google.com/url?q=http://transitlounge.com.au/shop/diary-of-a-naked-official/&sa=U&ved=0ahUKEWju7dX9i_bdAhWVHzQIHb0dAXwQwW4IGjAB&usg=AOvVaw0Aa3Oc4EaR9jlemkjg4kZZ angkor wat <> florence, arizona#prison industry groundwater issues sanctuary cities <> forced immigration of subject peoples Murder of Annie Le See also[edit] Arlis Perry, Stanford University student murdered on campus in 1974 Bonnie Garland murder case, Yale undergraduate murdered by her boyfriend, a Yale alumnus, during summer break 1977 Murder of Christian Prince, involving the death of a Yale senior on campus in 1991 Murder of Suzanne Jovin, involving the death of a Yale senior off campus in 1998 chinese student bus didnt stop odeans trick damn the afghan pakistani diamonds al quaeda shot a captain in interrogation hiding behind a curtain - dr siddiqui thank you Disappearance of Yingying Zhang TIL that a fourteen year-old boy, bleeding from the anus and heavily ... https://www.reddit.com/.../til_that_a_fourteen_yearold_boy_bleeding_from_the/ - Cached - Similar Oct 27, 2015 ... Razin originally set out to loot villages, but as he became a symbol of peasant unrest, his movement turned political.[16] Razin wanted to protect the independence of the Cossacks and to protest an increasingly centralized government. The Cossacks supported the tsar and autocracy, but they wanted a tsar that responded to the needs of the people and not just those of the upper class. By destroying and pillaging villages, Razin intended to take power from the government officials and give more autonomy to the peasants. However, Razin's movement failed and the rebellion led to increased government control. The Cossacks lost some of their autonomy, and the tsar bonded more closely with the upper class because both feared more rebellion. On the other hand, as Avrich asserts, "[Razin's revolt] awakened, however dimly, the social consciousness of the poor, gave them a new sense of power, and made the upper class tremble for their lives and possessions." [17] Razin originally set out to loot villages, but as he became a symbol of peasant unrest, his movement turned political.[16] Razin wanted to protect the independence of the Cossacks and to protest an increasingly centralized government. Returning to the past, the knights', Arthur and Bedevere attempt to satisfy the strange requests of the dreaded Knights Who Say Ni but walk away in disgust when the request become even stranger. After the timid looking Rabbit viciously kills several knights, does Arthur retreat and use the Holy Hand Grenade of Antioch, Arthur and his knights regroup and are joined by Brother Maynard and monk followers. They meet Tim the Enchanter, who directs them to a cave where the location of the Grail is said to be written, but it is guarded by the deadly Rabbit of Caerbannog. Arthur and his knights regroup and are joined by Brother Maynard and monk followers. They meet Tim the Enchanter, who directs them to a cave where the location of the Grail is said to be written, but it is guarded by the deadly Rabbit of Caerbannog (also known as the killer rabbit). Filioque (Ecclesiastical Latin: Filius "kwe") is a Latin term added to the original Niceno-Constantinopolitan Creed (commonly known as the Nicene Creed), and which has been the subject of great controversy between Eastern and Western Christianity. The Latin term Filioque describes the Holy Spirit as proceeding from both the Father and the Son, (and not from the Father only). In the Nicene Creed it is translated by the English phrase "and [from] the Son" [1]: Filioque (Ecclesiastical Latin: Filius "kwe") is a Latin term added to the original Niceno-Constantinopolitan Creed (commonly known as the Nicene Creed), and which has been the subject of great controversy between Eastern and Western Christianity. The Latin term Filioque describes the Holy Spirit as proceeding from both the Father and the Son, (and not from the Father only). In the Nicene Creed it is translated by the English phrase "and [from] the Son" [1]: Whether that term Filioque is included, as well as how it is translated and understood, can have important implications for how one understands the doctrine of the Holy Trinity, which is central to the majority of Christian churches. For some, the term implies a serious underestimation of the Father's role in the Trinity; for others, denial of what it expresses implies a serious underestimation of the role of the Son in the Trinity. Over time, the term became a symbol of conflict between Eastern Christianity and Western Christianity, although there have been attempts at resolving the conflict. Among the early attempts at harmonization are the works of Maximus the Confessor, who notably was canonised independently by both Eastern and Western churches. Smooth muscle cells are capable of generating action potentials, but this mechanism is rarely utilized for contraction in the vasculature. Hormonal or pharmacokinetic components are more physiologically relevant. Two common stimuli for eliciting smooth muscle contraction are circulating epinephrine and activation of the sympathetic nervous system (through release of norepinephrine) that directly innervates the muscle. These compounds interact with cell surface adrenergic receptors. Such stimuli result in a signal transduction cascade that leads to increased intracellular calcium from the sarcoplasmic reticulum through IP₃-mediated calcium release, as well as enhanced calcium entry across the sarcolemma through calcium channels. The rise in intracellular calcium complexes with calmodulin, which in turn activates myosin light-chain kinase. This enzyme is responsible for phosphorylating the light chain of myosin to stimulate cross-bridge cycling. Once elevated, the intracellular calcium concentration is returned to its basal level through a variety of protein pumps and calcium exchangers located on the plasma membrane and sarcoplasmic reticulum. This reduction in calcium removes the stimulus necessary for contraction, allowing for a return to baseline. The mechanism that leads to vasoconstriction results from the increased concentration of calcium (Ca²⁺ ions) within vascular smooth muscle cells.[2] However, the specific mechanisms for generating an increased intracellular concentration of calcium depends on the

/ĒEmÉːsx̣ᵑ pĔ™ É̃teʼamīÉ™/, Ancient Greek: ἰαλὴν ῥί·ιᾱίν·ι± "[land] between rivers"; Arabic: رَوْحٌ، روحٌ رَوحٌ،روح±روحٍ رُوحٌ رُوحة رُوحاً رُوحًا رُوحِيّ رُوحِيَّة رُوحَانِ رُوحَانِيَّ bilAd ar-Rāfidayn; Kurdish: Û...ÛceŕûþÛ¼âþãøšÛ...ÛCEøšâ€Ž; Persian: Ū...ÛCEøšÛtâtæCEøþ'Ø øšÛtâtæž miyÄn rudÄn; Syriac: ÙÜ–ÙćÜ–ÛäÜÜçâ€Ž Beth Nahrain "land of rivers") comes from the ancient Greek root words ἡλίφλιγ, (meso)

"middle" and "river" and translates to "Land" and "river". It is used throughout the Greek Septuagint (c. 250 BC) to translate the Hebrew and Aramaic equivalent Naharaim. An even earlier Greek usage of the name Mesopotamia is evident from The Anabasis of Alexander, which was written in the late 2nd century AD, but specifically refers to sources from the time of Alexander the Great. In the Anabasis, Mesopotamia was used to designate the land east of the Euphrates in north Syria. bobbit worm <> the gay country hell shock lefty like choked out tingles washed over with sick the eel making remote prey muscles spasm#nerve toxins that enable this and amplify the effect string cheese incident <> cheese pizza (conspiracy theory) roid rage <> farnesol musth On June 20, 2017, Ohio police announced that they were seeking additional information on Jake Wagner, as well as his parents Billy and Angela and brother George. Appenzell declared itself ready to stand against the abbot, and in 1403 formed an alliance with the Canton of Schwyz, a member of the Old Swiss Confederation that had defeated the Austrians{{disambiguation needed|date=November 2018}} in the last century. Farming or tax-farming is a technique of financial management, namely the process of commuting (changing), by its assignment by legal contract to a third party, a future uncertain revenue stream into fixed and certain periodic rents, in consideration for which commutation a discount in value received is suffered. It is most commonly used in the field of public finance, where the state wishes to gain some certainty about its future taxation revenue for the purposes of medium-term budgetting of expenditure. The tax collection process requires considerable expenditure on administration and the yield is uncertain both as to amount and timing, as taxpayers delay or default on their assessed obligations, often the result of unforeseen external forces such as bad weather affecting harvests. Governments (the lessors) have thus frequently over history resorted to the services of an entrepreneurial financier (the farmer) to whom they lease or assign the right to collect and retain the whole of the tax revenue due to the state in return for his payment into the treasury of fixed sums (sometimes called "rents", but with a different meaning from the common modern term). Sometimes (Miguel de Cervantes is an example) the tax farmer was a government employee, paid a salary, and all monies collected went to the government. In public choice theory and in economics, rent-seeking involves seeking to increase one's share of existing wealth without creating new wealth. Rent-seeking results in reduced economic efficiency through poor allocation of resources, reduced actual wealth-creation, lost government revenue, increased income inequality,[1] and (potentially) national decline. Attempts at capture of regulatory agencies to gain a coercive monopoly can result in advantages for the rent seeker in a market while imposing disadvantages on (incorrupt) competitors. This constitutes one of many possible forms of rent-seeking behavior. graf <> reeve mira ricardel <> french connection revenge porn lebanon barracks bombing mengele colonia dignidad chemical castration chemtrails ranch hand rajneesh bioterror ukraine poisons lab 12 chernobyl / fukushimza ? ranch hand paderborn chold snatvching juames bulger and kevins ives birchwood airport base smuggling railroad bible encampment angola diver attack dead peasant scheme list of apartheidists from yugoslavia izzy keyes yellow house in kosovo 425 <> violence against women revenge porn list of weakest link units specializing in crimes against women and children poisoning people to obtain their assets and organ harvesting chemtrails <> security aviation Notable clients[edit] Daniel Wilson[6] Calvin Gibbs[7][8][9][10] Ilario Pantano Christopher Vangoethem[11] Ariel Weinmann[12] Matthew Golsteyn[13][14] Robert Alan "Beau" Walker[15] Notable clients[edit] Daniel Wilson[6] Calvin Gibbs[7][8][9][10] Ilario Pantano Christopher Vangoethem[11] Ariel Weinmann[12] Matthew Golsteyn[13][14] Robert Alan "Beau" Walker[15] Special Operations Chief Edward "Eddie" Gallagher, a highly decorated Navy SEAL, is fighting murder charges tied to the death of an Islamic State operative in Iraq. Piblokto <> batroxobin shrew poison musth poppers odean groff#goatse.cx chemical castration depo-provera Piblokto was first documented in 1892 and reports by European explorers describe the phenomenon as common to all Arctic regions. Explorers were the first to notice piblokto. Among these, Admiral Robert Peary provided a detailed look into the disorder during an expedition to Greenland. The acts Peary and his men witnessed among the Inuit women provided entertainment, and, having sent the women's male counterparts out on missions, Peary's men reaped the sexual benefits of being the only males present.[4] Piblokto is not limited to the indigenous people; reports of stranded sailors during the 1800s exhibiting the same symptoms have been found. The disorder is said to have existed before Western contact and still occurs today.[5] However, as discussed below, many scholars now hold that culture bound disorders may often be an artifact of colonial encounters, and contemporary discussions of piblokto in medical anthropology and cross-cultural psychiatry consider it to be an example of the suspect nature of culture bound syndromes.[6] Piblokto was first documented{{editorializing|date=November 2018}} in 1892 and reports by European explorers describe the phenomenon as common to all Arctic regions. Explorers were the first to notice piblokto. Among these, Admiral Robert Peary provided a detailed look into the disorder during an expedition to Greenland. The acts Peary and his men witnessed among the Inuit women provided entertainment, and, having sent the women's male counterparts out on missions, Peary's men reaped the sexual benefits of being the only males present.[4] Piblokto is not limited to the indigenous people; reports of stranded sailors during the 1800s exhibiting the same symptoms have been found. Similar symptoms have been reported in European sailors stranded in Arctic regions in the 1800s. Among the Inughuit, the attacks are not considered out of the ordinary. No native theory of the disorder is currently reported. This condition is most often seen in Inughuit women.[7] Piblokto is most common during long Arctic nights.[8] 8. ^ Brill, A. (August 1913) Piblokto or Hysteria Among Peary's Eskimos. Volume 40. Issue 8. pp. 514-520. Piblokto is most often found but not confined to the Inughuit culture in the polar regions of northern Greenland. Similar symptoms have been reported in European sailors stranded in Arctic regions in the 1800s. Among the Inughuit, the attacks are not considered out of the ordinary. No native theory of the disorder is currently reported. This condition is most often seen in Inughuit women.[7] in 1913 Piblokto was most common during long Arctic nights.[8] Although there is no known cause for piblokto, Western scientists have attributed the disorder to the lack of sun, the extreme cold, and the desolate state of most villages in the region. A reason for this disorder present in this culture may be due to the isolation of their cultural group.[10] Although there is no known cause for piblokto, Western{{disambiguation needed|date=November 2018}} scientists{{who?|date=November 2018}} have attributed the disorder to the lack of sun, the extreme cold, and the desolate state of most villages in the region. The imperial ambassador, Jean Scheyfve, reported that "he suffers a good deal when the fever is upon him, especially from a difficulty in drawing his breath, which is due to the compression of the organs on the right side".[169] Edward felt well enough in early April to take the air in the park at Westminster and to move to Greenwich, but by the end of the month he had weakened again. By 7 May he was "much amended", and the royal doctors had no doubt of his recovery. A few days later the king was watching the ships on the Thames, sitting at his window.[170] However, he relapsed, and on 11 June Scheyfve, who had an informant in the king's household, reported that "the matter he ejects from his mouth is sometimes coloured a greenish yellow and black, sometimes pink, like the colour of blood".[171] Now his doctors believed he was suffering from "a suppurating tumour" of the lung and admitted that Edward's life was beyond recovery.[172] Soon, his legs became so swollen that he had to lie on his back, and he lost the strength to resist the disease. To his tutor John Cheke he whispered, "I am glad to die".[173] - - which one columbine shooting <> the phone guys whos daughter they that was just nasty - porn impresario broad sort of chemtrails <> list of hot tar machinery economics of scarcity <> pishtaco tax farm chateau de waggawagga for lying down and avoiding <> vigna umbladdah list of combustible poison 'proteins' pinworms <> roid rage musth [PDF]Â Seabee Combat Handbook, Volume 1 - Bad Request webapp1.dlib.indiana.edu/virtual_disk_library/index.../SEAB_HB1.PDF - Similar east of the prime meridian are numbered from 0Â° to 180Â° chestâ€give yourself the injections from the NAAK, After each use, refill the M11 with DS2 and fit. mille bornes <>See also[edit] Touring (card game) Grass (card game) sarin chlorpicrin metal picrate english editions of struwwelpeter known surreptitious uses of chemical weapons arms dealer edmund kashoggi failed algerian nuclear experiment chemical apocalypse seaweed of death from hana failed algerian nuclear experiment <> chernobyl fukushima three mile island mille bornes <>See also[edit] Touring (card game) Grass (card game) sarin chlorpicrin metal picrate english editions of struwwelpeter known surreptitious uses of chemical weapons arms dealer edmund kashoggi failed algerian nuclear experiment chemical apocalypse seaweed of death from hana pinworms#difficulty in getting rid of the eggs omerta <> dead peasant policy ku (poison) <> 2008 sunstein memo hostile takeover of wikipedia core editors bobbit worm [https://en.wikipedia.org/wiki/Ku_\(poison\)#Gu_remedies](https://en.wikipedia.org/wiki/Ku_(poison)#Gu_remedies) - crack cocaine - to a lesser extent, tropane free base in general, to differing degrees of effectiveness - saltpeter fake antidote usury is part of the scheme to poison is ohmohcare denial of health care ohmotrumpcare ? ohmo trump continued fake 'care' propaganda <> brain drain Thanks to its command of the sea, the fleet was able to supply Cromwell's army with provisions as it successfully marched on Scotland. He attempted to mediate between the army and civil society, and allowed a Parliament to sit which contained a large number of disaffected Presbyterians and Royalists. Suspicions that civilian councillors were intent on supplanting the army were brought to a head by an attempt to prosecute a major-general for actions against a Royalist. The army made a threatening show of force against Richard, and may have had him in detention; he formally renounced power nine months after succeeding. Without a king-like figure, such as Oliver Cromwell, as head of state the government lacked coherence and legitimacy. On his father's death Richard became Lord Protector, but he lacked authority. The war will usually be won by the side with greater such resources.[1] The word attrition comes from the Latin root atterere to rub against, similar to the "grinding down" of the opponent's forces in attrition warfare.[2] Attrition warfare is a military strategy consisting of belligerent{{editorializing|date=December 2018}} attempts to win a war by wearing down the enemy to the point of collapse through continuous losses in personnel and materiel. The war will usually be won by the side with greater such resources.[1] The word attrition comes from the Latin root atterere to rub against, similar to the "grinding down" of the opponent's forces in attrition warfare.[2] this is misleading as one not need be belligerent to wear down an attacker this way. indeed the attrition strategy is most effective when employing a nonviolent resistance technique Attrition warfare is a military strategy consisting of belligerent attempts to win a war by wearing down the enemy to the point of collapse through continuous losses in personnel and materiel. The war will usually be won by the side with greater such resources.[1] The word attrition comes from the Latin root atterere to rub against, similar to the "grinding down" of the opponent's forces in attrition warfare.[2] - in the context of southeast asia, the south and their allies lost the war of attrition in that they failed in their objective to kill more opponents than the north was able to recruit every year hows syria coming along in the context of rebel recruitment vs losses per year It is often argued that the best-known example of attrition warfare was on the Western Front during World War I.[3] Both military forces found themselves in static defensive positions in trenches running from Switzerland to the English Channel. For years, without any opportunity for manoeuvres, the only way the commanders thought that they could defeat the enemy was to repeatedly attack head on and grind the other down.[4] It is often argued that the best-known example of attrition warfare was on the Western Front during World War I.[3] Both military forces found themselves in static defensive positions in trenches running from Switzerland to the English Channel. For years, without any opportunity for manoeuvres, the only way the commanders thought that they could defeat the enemy was to repeatedly attack head on and grind the other down.[4] Others attribute these sorts of practices to a sort of malthusian barleycorn must die mentality, as depicted for example in the china clay army which depicts the armored central corps driving the unarmored masses like sheep to slaughter. Compare also various allegations of modern security organizations said to have cut their teeth machine gunning stragglers into battle Falkenhayn is described as wanting to "bleed France white" [5] and thus the attrition tactics were employed in the battle. 5. ^ First World War. "Erich von Falkenhayn on the Battle of Verdun, 21 February 1916". http://www.firstworldwar.com/source/verdun_falkenhayn.htm the southeast asian and algerian adventures are presumably attributable to a similar sentiment the syria thing in particular ? not so much france tho think belgium was the leader there Gelonus <> burnt house horizon cetalhoyuk angkor wat Pentecopterus Pentecopterus is known from Middle Ordovician deposits in the Winneshiek Shale of Iowa dated to the Darriwilian (467.3 mya). The Winneshiek Shale is an 18à€”27 m thick greenish brown to dark grey laminated sandy shale that crops out only in one locality which is mostly submerged by the Upper Iowa River near Decorah. Bore hole data indicate that the total thickness of the Winneshiek Shale is about 18 m at the outcrop locality, but only the upper 4 m was systematically collected during the excavation. In these 4 m, most of the Pentecopterus fossils were collected. This shale is confined to a circular basin about 5.6 km in diameter in the Decorah area that probably originated from a meteorite impact. Palaeogeographic and paleoenvironmental studies suggest that this crater was located in marginal to

southern Laurentia. The Winneshiek fauna is very different from the shelly marine fossil fauna, which indicates that this environment was inhospitable to the typical marine taxa. This fauna was composed of conodonts, arthropods, possible jawless fishes and algae.[3] See also[edit] List of eurypterid genera lobster The genus is named after the penteconter, an early galley (ship) from ancient Greece and one of the first true warships. The penteconter emerged in an era when there was no distinction between merchant and war ships. They were versatile, long-range ships used for sea trade, piracy and warfare, capable of transporting freight or troops. - which is it The successful experience in KobanÃ© had informed U.S. policy in regards to arming Syrian opposition groups other than the Kurdish YPG, with plans to give other groups technicals equipped with radio and GPS equipment to call in airstrikes.[3] John R. Allen, President Obama's envoy to the international coalition against ISIL, has said "It is clearly part of our plan, that not only we will train them, and we will equip them with the latest weapons systems, but we will also protect them when the time comes," alluding to aiding the opposition with air support and no fly zones.[16] The United Kingdom announced it will send around 75 military instructors to train Syrian opposition forces.[17] The train-and-equip programme started on 9 May.[18] On 25 May, Turkey and the U.S. agreed "in principle" on the necessity to support these forces with air support.[19] The successful experience in KobanÃ© had informed U.S. policy in regards to arming Syrian opposition groups other than the Kurdish YPG, with plans to give other groups technicals equipped with radio and GPS equipment to call in airstrikes.[3] John R. 2017, TripAdvisor was cited in two reports from the Milwaukee Journal Sentinel[81] and CBS News[82] that it
was responsible for deleting numerous reviews that raised red flags of complaisant criminal responsibility by
resorts in Playa del Carmen, a popular tourist resort in the YucatÃn Peninsula of Mexico. The reports cited
that the company deleted reviews from two women who were raped at the Iberostar Paraiso Maya in
separate incidents 2010 and 2015 respectively, one of which involved a hotel security guard. After
assurances from hotel staff they would help out and contact the authorities but failed to take any follow-up
action, the women took their advisories and warnings to TripAdvisor, which deleted their reviews. The first
victim, Kristie Love, had her review eventually put back up on TripAdvisor's site successfully, while in the case
of the second victim, Jamie Valeri, the company refused to budge after citing her report as "hearsay." The
reports also highlighted at least a dozen other incidents at hotels and resorts across Mexico, including that of
a 29-year-old man who was raped by a massage therapist at a resort in the same area, where reviewers had
attempted to warn people through reviews on the company's site about criminal incidents that the resorts
and local authorities had failed to pursue any criminal or legal action for, only to have those reviews either
taken down or declined for posting by TripAdvisor. In November 2017, Oobah Butler, a journalist for Vice
Media, used fake reviews to boost a nonexistent restaurant named The Shed at Dulwich to the top of
Tripadvisor rankings for restaurants in London.[83][84][85] When questioned about its fraud-prevention
systems, TripAdvisor responded that this type of fraud was not generally seen, because unlike artificially good
reviews for a real restaurant, creating good reviews for a non-existent restaurant is not profitable. In

Mozi (book) <> ku (poison) the Indian one that talks about don't deny water poison it is it Most historians believe that Mozi was a member of the lower artisan class who managed to climb his way to an official post. It is known, however, that his parents were not affectionate towards him and showed him very little love. 6. ^ Needham & Wang 1956 165. Needham & Wang wrote in 1956 that most historians believe that Mozi was a member of the lower artisan class who managed to climb his way to an official post, that it is known that his parents were not affectionate towards him and showed him very little love; however today it is generally supposed that this interpretation was merely their reaction to their own fruitless youths and social climbing aspirations. Mozi See also[edit] China portal Logic portal Philosophy portal Religion portal A Battle of Wits – a historical film based around Mohism History of geometry List of people on stamps of the People's Republic of China Fa, an influential concept elaborated by Mozi Pablo Neruda Bill the Galactic Hero Good Soldier Sveik Robert Cochrane (favourite) South (Freemasonry) Cult of Mithras ? Overlooked by those critics, however, is a passage in the chapter on "Self-Cultivation" which states, "When people near-by are not befriended, there is no use endeavoring to attract those at a distance." This point is also precisely articulated by a Mohist in a debate with Mencius (in the Mencius), where the Mohist argues in relation to carrying out universal love, that "We begin with what is near." Also, in the first chapter of the writings of Mozi on universal love, Mozi argues that the best way of being filial to one's parents is to be filial to the parents of others. The foundational principle is that benevolence, as well as malevolence, is required, and that one will be treated by others as one treats others. Mozi quotes a popular passage from the Book of Odes to bring home this point: "When one throws to me a peach, I return to him a plum." One's parents will be

treated by others as one treats the parents of others. In pursuing this line of argument, Mozi was directly appealing to the idea of enlightened self-interest in social relations. Also of note is the fact that Mozi differentiated between "intention" and "actuality", thereby placing a central importance on the will to love, even though in practice it may very well be impossible to bring benefit to everyone. Overlooked by those critics, however, is a passage in the chapter on "Self-Cultivation" which states, "When people near-by are not befriended, there is no use endeavoring to attract those at a distance." This point is also precisely articulated by a Mohist in a debate with Mencius (in the Mencius), where the Mohist argues in relation to carrying out universal love, that "We begin with what is near." Also, in the first chapter of the writings of Mozi on universal love, Mozi argues that the best way of being filial to one's parents is to be filial to the parents of others. The foundational principle is that benevolence, as well as malevolence, is requited, and that one will be treated by others as one treats others. Mozi quotes a popular passage from the Book of Odes to bring home this point: "When one throws to me a peach, I return to him a plum." One's parents will be treated by others as one treats the parents of others. Mozi travelled from one crisis zone to another throughout the ravaged landscape of the Warring States, trying to dissuade rulers{{disambiguation needed|date=December 2018}} from their plans of conquest. Mozi travelled from one crisis zone to another throughout the ravaged landscape of the Warring States, trying to dissuade rulers from their plans of conquest. According to the chapter "Gongshu" in Mozi, he once walked for ten days to the State of Chu in order to forestall an attack on the State of Song. At the Chu court, Mozi engaged in nine simulated war games with Gongshu Ban, the chief military strategist of Chu, and overturned each one of his stratagems. When Gongshu Ban threatened him with death, Mozi informed the king that his disciples had already trained the soldiers of Song in his fortification methods, so it would be useless to kill him. The Chu king was forced to call off the war. On the way back, however, the soldiers of Song, not recognizing him, would not allow Mozi to enter their city, and he had to spend a night freezing in the rain. After this episode, he also stopped the State of Qi from attacking the State of Lu. He taught that defense of a city does not depend only on fortification, weaponry and food supply; it is also important to keep talented people close by and to put trust in them. With this came an agreement between the two authoritarian dictatorships to provide South Tyroleans with the difficult and forced option to emigrate into the Greater Germanic Reich or accept the terms of their Italianization. 86% of South Tyroleans complied with resettlement in territories controlled (or occupied) by Germany. Due to the start of World War II only a proportion of this population emigrated. While most of the emigrants returned after the war, these policies resulted in the permanent departure of 75,000 of their populace.[10] Linguistic reforms were instituted following the Fascist regime's overthrow in 1945, restoring most of the basic rights of South Tyroleans that had been previously revoked. American producer and author Brian Dunning believes Polybius to be an urban legend that grew out of a mixture of influences in the 1980s.[1] He notes that two players fell ill in Portland on the same day in 1981, one collapsing with a migraine headache after playing Tempest,[1] and another suffering from stomach pain after playing Asteroids for 28 hours in a filmed attempt to break a world record at the same arcade.[11] Dunning records that the Federal Bureau of Investigation raided several video arcades in the area just ten days later, where the owners were suspected of using the machines for gambling, and the lead-up to the raid involved FBI agents monitoring arcade cabinets for signs of tampering and recording high scores. Dunning suggests that these two events were combined in an urban legend about government-monitored arcade machines making players ill. He believes that such a myth must have been established by 1984, and that it influenced the plot of the film *The Last Starfighter*, in which a teenager is recruited by aliens who monitored him playing a covertly-developed arcade game.[1] Dunning considers "Sinnesl schen" to be the kind of name that a non-German speaker would generate if they tried to create a compound word using an English-to-German dictionary.[1] Skeptics and researchers have differing ideas on how and why the story of Polybius came about. The Russo-Japanese War was another conflict where battle deaths outnumbered disease deaths, but it was fought on a much smaller scale between just two nations. One gruesome reminder of the sacrifices of the generation was the fact that this was one of the first times in international conflict whereby more men died in battle than from disease, which was the main cause of deaths in most previous wars. The Russo-Japanese War was another conflict where battle deaths outnumbered disease deaths, but it was fought on a much smaller scale between just two nations. (Technically empires or "monarchies," whereas in the first at least one party was a government of the relatively new reformed type) After the Paris Peace Conference of 1919, the signing of the Treaty of Versailles on 28 June 1919, between Germany on the one side and France, Italy, Britain and other minor allied powers on the other, officially ended war between those countries. Other treaties ended the relationships of the United States and the other Central Powers. Included in the 440 articles of the Treaty of Versailles were the demands that Germany officially accept responsibility for starting the war and pay economic reparations

The treaty drastically limited the German military machine: German troops were reduced to 100,000 and the country was prevented from possessing major military armaments such as tanks, warships, armored vehicles and submarines. After the Paris Peace Conference of 1919, the signing of the Treaty of Versailles on 28 June 1919, between the Germany on the one side and France, Italy, Britain and other minor allied powers on the other, officially ended war between those countries. Other treaties ended the relationships of the United States and the other Central Powers. Included in the 440 articles of the Treaty of Versailles were the demands that the Reich officially accept responsibility for starting the war and pay economic reparations. The treaty drastically limited the German military machine: German troops were reduced to 100,000 and the country was prevented from possessing major military armaments such as tanks, warships, armored vehicles and submarines. Economic and military cooperation amongst these small states was minimal, ensuring that the defeated powers of Germany and the Soviet Union retained a latent capacity to dominate the region. Economic and military cooperation amongst these small states was minimal, ensuring that the defeated powers of Germany and the Mensheviks retained a latent capacity to dominate the region. ? Economic and military cooperation amongst these small states was minimal, ensuring that the defeated powers of the German Reich and the Mensheviks retained a latent capacity to dominate the region. Economic and military cooperation amongst these small states was minimal, ensuring that the defeated powers of the German Reich and the not quite yet defeated Mensheviks retained a latent capacity to dominate the region. Economic and military cooperation amongst these small states was minimal, ensuring that the defeated powers of the German Reich and the not quite yet defeated Mensheviks retained a latent capacity to dominate the region. At least one ally maintained a garrison in at least one of these states as well (compare northern dvina/yenisei conflict) In the immediate aftermath of the war, defeat drove cooperation between Germany and the Soviet Union but ultimately these two powers would compete to dominate eastern Europe. In the immediate aftermath of the war, defeat drove cooperation between Germany and the Soviet Union but ultimately these two powers would compete to dominate eastern Europe.{{Citation needed|date=December 2018}} In the immediate aftermath of the war, defeat drove cooperation between Germany and the Soviet Union but ultimately these two powers would compete to dominate eastern Europe,{{Citation needed|date=December 2018}} in some cases relying arguably more or less heavily on the use of proxies, for example in the case of bandera. ? German and Austrian forces in 1918 defeated the Russian armies, and the new communist government in Moscow signed the Treaty of Brest-Litovsk in March 1918. In that treaty, Russia renounced all claims to Estonia, Finland, Latvia, Lithuania, Ukraine, and the territory of Congress Poland, and it was left to Germany and Austria-Hungary "to determine the future status of these territories in agreement with their population." German and Austrian forces in 1918 defeated the Russian armies, and the new communist government in Moscow signed the Treaty of Brest-Litovsk in March 1918. In that treaty, Russia renounced all claims to Estonia, Finland, Latvia, Lithuania, Ukraine (except crimea; ceded to ukrainian ssr 195?), and the territory of Congress Poland, and it was left to Germany and Austria-Hungary "to determine the future status of these territories in agreement with their population." A far-left and often explicitly Communist revolutionary wave occurred in several European countries in 1917-1920, notably in Germany and Hungary. The single most important event precipitated by the privations of World War I was the Russian Revolution of 1917. A far-left and often explicitly Communist revolutionary wave occurred in several European countries in 1917-1920, notably in Germany and Hungary. The single most important event precipitated by the privations of World War I was the Russian Revolution of 1917. However in mentioning a three year wave of communism which swept germany in this time it may also be notable to remark that the bavarian soviet lasted all of two and a half months A far-left and often explicitly Communist revolutionary wave occurred in several European countries in 1917-1920, notably in Germany and Hungary. The single most important event precipitated by the privations of World War I was the Russian Revolution of 1917. However in mentioning a three year wave of communism which swept germany in this time it may also be notable to remark that the bavarian soviet lasted all of two and a half months and resulted primarily in wholesale replacement of history textbooks under threat of continued Allied advance, to sign the Treaty of Versailles. Germany viewed the one-sided treaty as a humiliation and as [[Article 231 of the Treaty of Versailles|blaming it for the entire war]]. While the intent of the treaty was to assign guilt to Germany to under threat of continued Allied advance, to sign the Treaty of Versailles. Another view is that Hitler or the Nazis usurped power later with a self-appointment to the chancellorship and achieved 'political power' by assuming de facto control of private enterprise, notably while leaving it still under the original ownership, perhaps much as the allies would do with the [[Emperor of Japan]] some decade later. The Soviet Union benefited from Germany's loss, as one of the first terms of the armistice was the abrogation of the Treaty of Brest-Litovsk. The question of whether the communists in Moscow benefited from Germany's loss, as one of the first terms of the armistice was the abrogation of the Treaty of Brest-Litovsk remains a topical one today. The question of whether the communists in Moscow benefited from the German Reich's loss, as one of the first terms of the armistice was the abrogation of the Treaty of Brest-Litovsk remains a topical one today. The Western forces were officially supposed to occupy the old Empire, but rarely had enough troops to do so effectively. They had to deal with local authorities who had their own agenda to fulfill. At the peace conference in Paris the diplomats had to reconcile these authorities with the competing demands of the nationalists who had turned to them for help during the war, the strategic or political desires of the Western allies themselves, and other agendas such as a desire to implement the spirit of the Fourteen Points. The Western forces were officially supposed to occupy the old Empire, but rarely had enough troops to do so effectively. They had to deal with local authorities who had their own agenda to fulfill. At the peace conference in Paris the diplomats had to reconcile these authorities with the competing demands of the nationalists who had turned to them for help during the war, the strategic or political desires of the Western allies themselves, and other agendas such as a desire to implement the spirit of the Fourteen Points. However this interpretation of Article 231 as merely an instrument to quell unrest and general discontent among disparate self-interest servers fashioned by burdened well meaning officials runs contrary to the later Nazi propaganda, as mentioned above. For example, in order to live up to the ideal of self-determination laid out in the Fourteen Points, Germans, whether Austrian or German, should be able to decide their own future and government. However, the French especially were concerned that an expanded Germany would be a huge security risk. Further complicating the situation, delegations such as the Czechs and Slovenians made strong claims on some German-speaking territories. For example, in order to live up to the ideal of self-determination laid out in the Fourteen Points, Germans, whether Austrian or German, should be able to decide their own future and government. However, concerned planners, arguably the French especially were concerned that a militarized Germany would be, if not a huge security risk, highly inconvenient at best. Further complicating the situation, delegations such as the Czechs and Slovenians made strong claims on some German-speaking territories. This distribution is much larger than the lethal radius of the shells, so the chance that any one shell will successfully hit the target is very small. Successful anti-aircraft gunnery therefore requires as many rounds to be fired as possible, increasing the chances that one of the rounds will get a "hit". During The Blitz, UK gunners fired 49,044 shells in January 1941 for 12 kills, almost 4,100 shells per success.[4] German gunners did better, as they had radar assistance and most aircraft were targeted during daylight, estimating that an average of 2,800 shells were required to down a single Boeing B-17.[5] Flying faster means that the aircraft passes through the range of a gun more rapidly, reducing the number of rounds a particular gun can fire at that aircraft. Flying at higher altitudes often has a similar effect, as it requires larger shells to reach those altitudes, and this typically results in slower firing rates for a variety of practical reasons. Aircraft using jet engines roughly double the speed and altitude over piston-powered designs, limiting the number of shells so greatly that the chance of hitting the bomber dropped almost to zero. As early as 1942, German flak commanders were keenly aware of the problem, and expecting to face jet bombers, they began a missile development program to supplant their guns.[6] The inherent inaccuracy of anti-aircraft artillery means that when shells reach their targets they are randomly distributed in space. This distribution is much larger than the lethal radius of the shells, so the chance that any one shell will successfully hit the target is very small. Successful anti-aircraft gunnery therefore requires as many rounds to be fired as possible, increasing the chances that one of the rounds will get a "hit". Lesya Gongadze, mother of murdered Ukrainian journalist Georgy Gongadze famously made a similar objection before her death in 2013. Three former officials of the Ukrainian Interior Ministry's foreign surveillance department and criminal intelligence unit[3] (Valeriy Kostenko, Mykola Protasov and Oleksandr Popovych) accused of his murder were

arrested in March 2005 and a fourth one (Oleksiy Pukach, the former chief of unit[3]) in July 2009.[4] A court in Ukraine sentenced Protasov to a sentence of 13 years and Kostenko and Popovych to 12-year terms March 2008 (the trial had begun January 2006[5]) for the murder. Gongadze's family believe the trial had failed to bring the masterminds behind the killing to justice.[6] No one has yet been charged with giving the order for Gongadze's murder.[5] Three former officials of the Ukrainian Interior Ministry's foreign surveillance department and criminal intelligence unit[3] (Valeriy Kostenko, Mykola Protasov and Oleksandr Popovych) accused of his murder were arrested in March 2005 and a fourth one (Oleksiy Pukach, the former chief of the unit[3]) in July 2009.[4] A court in Ukraine sentenced Protasov to a sentence of 13 years and Kostenko and Popovych to 12-year terms March 2008 (the trial had begun January 2006[5]) for the murder. Gongadze's family believe the trial had failed to bring the masterminds behind the killing to justice.[6] No one has yet been charged with giving the order for Gongadze's murder;[5] there has been no further progress in the case since the "euromaidan" of 2013. In 1999 he was a spokesman for the Progressive Socialist Party of Ukraine Nataliya Vitrenko. In 1999 he was a spokesman for the Progressive Socialist Party of Ukraine Nataliya Vitrenko, a woman in a leadership position. Gongadze disappeared on 16 September 2000, after failing to return home. Foul play was suspected from the outset. The matter immediately attracted widespread public attention and media interest. Eighty journalists signed an open letter to President Kuchma urging an investigation and complaining that "during the years of Ukrainian independence, not a single high-profile crime against journalists has been fully resolved." Kuchma responded by ordering an immediate inquiry. This was, however, viewed with some skepticism. Opposition politician Hryhoriy Omelchenko reported that the disappearance had coincided with Gongadze receiving documents on corruption within the president's own entourage. The Ukrainian Parliament set up a parallel inquiry run by a special commission. Neither investigation produced any results. Gongadze disappeared on 16 September 2000, after failing to return home. Foul play was suspected from the outset. The matter immediately attracted widespread public attention and media interest. Eighty journalists signed an open letter to President Kuchma urging an investigation and complaining that "during the years of Ukrainian independence, not a single high-profile crime against journalists has been fully resolved." Kuchma responded by ordering an immediate inquiry. This was, however, viewed with some skepticism. {{Citation needed|date=February 2019}} Opposition politician Hryhoriy Omelchenko reported that the disappearance had coincided with Gongadze receiving documents on corruption within the president's own entourage. The Ukrainian Parliament set up a parallel inquiry run by a special commission. 4.1 Arrest and trial of three former policemen and death of Kravchenko 4.2 Arrest and trial of Oleksiy Pukach 4.3 Charges against Leonid Kuchma Gongadze was buried in the Mykola Naberezhny Church in Kiev on 22 March 2016.[8] Gongadze had remained unburied until then, as Lesya Gongadze, the journalist's mother, has refused to have the body interred until Gongadze's head had been found.[42] In 2009, according to the Prosecutor's General Office, the remains of his skull were found but Lesya Gongadze had refused to acknowledge that the found remains belonged to her son.[59] Lesya Gongadze died on 30 November 2013.[59] Gongadze was buried in the Mykola Naberezhny Church in Kiev on 22 March 2016.[8] Gongadze had remained unburied until then, as Lesya Gongadze, the journalist's mother, has refused to have the body interred until Gongadze's head had been found.[42] In 2009, according to the Prosecutor's General Office, the remains of his{{disputed|date=February 2019}} skull were found but Lesya Gongadze had refused to acknowledge that the found remains belonged to her son.[59] Lesya Gongadze died on 30 November 2013.[59] He accused Sherman of crossing intellectual property right ethical lines to "fight as many as 100 battles at a time in court to challenge drug patents and make way for Apotex's generic prescriptions" with little end benefit to consumers.[35][36] He accused Sherman of crossing intellectual property right ethical lines to "fight as many as 100 battles at a time in court to challenge drug patents{{which?|date=February 2019}} and make way for Apotex's generic prescriptions"{{which?|date=February 2019}}[sic; apotex didnt write prescriptions or fill them they provided the products use to do so] with little end benefit to consumers.[35][36] though this was denied by Sherman.[34][39][40] In September 2017, an Ontario Superior Court justice ruled against the cousins, saying the case was "wishful thinking, and beyond fanciful."{{40}}[41] At the time of the judgement, a lawyer for the cousins said they would appeal, though no appeal occurred, and Sherman died a few months later under unknown circumstances. After the fall of the Amezcua brothers' founders of the Colima Cartel in 1999 on methamphetamine trafficking charges, there was a demand for leadership throughout Mexico to coordinate methamphetamine shipments north. Guzmán saw an opportunity and seized it.[90] Easily arranging precursor shipments, Guzmán and Ismael Zambada García ("El Mayo") made use of their previous contacts on Mexico's Pacific coast. Importantly, for the first time, the Colombians would not have to be paid they simply joined methamphetamine with cocaine shipments. This fact meant no additional money was needed for airplanes, pilots, boats and bribes; they used the existing infrastructure to pipeline the new product.[90] After the fall of the Amezcua brothers' founders of the Colima Cartel in 1999 on methamphetamine trafficking charges, there was a demand for leadership throughout Mexico to coordinate methamphetamine shipments north. content (see the help page). Lemon socialism is a pejorative term for a form of government intervention in
which government subsidies go to weak or failing firms (lemons; see Lemon law), with the effective result
that the government (and thus the taxpayer) absorbs part or all of the recipient's losses. The term derives
from the conception that in socialism the government may nationalize a company's profits while leaving the
company to pay its own losses, while in lemon socialism the company is allowed to keep its profits but its
losses are shifted to the taxpayer.[1][2] <>? welfare for the rich Such payments may be made with the intent
of preventing further, systemic damage to what might otherwise be considered a free marketplace.[3][4] For
example, the bailout that followed the 2008 financial crisis may be described as lemon socialism.[5][6][7] The
pejorative arises from the belief among free market economists that in a functional free market, failing
companies will be replaced by better functioning companies in response to market demand. Such payments
may be made with the intent of preventing further, systemic damage to what might otherwise be considered
a free marketplace [3][4] For example, the bailout that followed the 2008 financial crisis may be described as

lemon socialism.[5][6][7] The pejorative arises from the belief among free market economists that in a functional free market, failing companies will be replaced by better functioning companies in response to market demand but primarily due to the fact welfare for the rich makes a laughingstock of any pretence to traditional values such as work ethic. partly because they almost always use the money for human trafficking and other much nastier ventures and unchecked will bankrupt the country because of all the resulting ostentatious waste and resulting corruption. see also power corrupts etc In Icelandic, lemon socialism is known as "SÃ³sÃ­alismi andskotans", meaning "the devil's socialism", a term coined by Vilmundur JÃ³nsson (1889â€“1971, Iceland's Surgeon General) in the 1930s to criticize alleged crony capitalism in Landsbanki, which has gained renewed currency in the debate over the 2008â€“2012 Icelandic financial crisis.[11] Lemon socialism, or more precisely crony capitalism, is also referred to as PilsfaldakapÃ­talismi, meaning "skirt capitalism", pilsfaldur being the hemline of the skirt; and the term referring to children hiding behind their mothers' skirts after having done something wrong to criticize the alleged lack of transparency in dealings and reluctance to deal with bad consequences by themselves. In Icelandic, lemon socialism is known as "SÃ³sÃ­alismi andskotans", meaning "the devil's socialism", a term coined by Vilmundur JÃ³nsson (1889â€“1971, Iceland's Surgeon General) in the 1930s to criticize alleged crony capitalism in Landsbanki, which has gained renewed currency in the debate over the 2008â€“2012 Icelandic financial crisis.[11] Lemon socialism, or more precisely crony capitalism, is also referred to as PilsfaldakapÃ­talismi, meaning "skirt capitalism", pilsfaldur being the hemline of the skirt; and the term referring to children hiding behind their mothers' skirts after having done something wrong to criticize the alleged lack of transparency in dealings and reluctance to deal with bad consequences by themselves, probably a reference to the more or less famous nutcracker scene. She helped gain the men's freedom after they spent many years in prison for a murder conviction.[1][sec; she wasn't a public defender at that time] if anything she just forced em to agree to give up their rights to sue or she wouldn't have released em this is fucken sad isabel yore a bitch Though England failed to win that prolonged conflict, English and British Monarchs until the late 18th Century continued to maintain, at least formally, a claim to the French throne. Hundred Years' War[edit] The Hundred Years' War could be considered a lengthy war of succession between the houses of Valois and Plantagenet. The early reign of Philip VI was a promising one for France. The new king fought the Flemings on behalf of his vassal, the count of Flanders, and restored that count to power. Edward III's aggression against Scotland, a French ally, prompted Philip VI to confiscate Guyenne. In the past the English kings would have to submit to the King of France. But Edward, having descended from the French kings, claimed the throne for himself. France was then at the height of its power. No one believed that the English king could make good his claim to France. After the 1451 French capture of Bordeaux by the armies of Charles VII, the Hundred Years' War appeared to be at an end. The English primarily focused on reinforcing their only remaining possession, Calais, and watching over the seas.[6] However, after three hundred years of Plantagenet rule, the citizens of Bordeaux considered themselves subjects of the English monarch and sent messengers to Henry VI of England demanding that he recapture the province.[7] 7. ^ Pollard 1983, p.135 After the 1451 French capture of Bordeaux by the armies of Charles VII, the Hundred Years' War appeared to be at an end. The English primarily focused on reinforcing their only remaining possession, Calais, and watching over the seas.[6] However, Pollard famously wrote in 1983 that after three hundred years of Plantagenet rule, the citizens of Bordeaux considered themselves subjects of the English monarch and sent messengers to Henry VI of England demanding that he recapture the province.[7] cochrane's classical scenario of loborn advice <> self-help (genre) nobility envy nontransgender genocide some kind of help, is the kind of help... The name has also been adopted by the birdwatching community to describe the familiar V-shaped formations of flights of geese, ducks and other migratory birds, though this more symmetric formation may be more formally defined as a V formation. Many details about the battle were made up later in order to heroize the defenders. In 1900 a monument to the defenders was raised. The cult reached its peak in the Nazi era, when local party members used the names of the battle participants for their propaganda. Today there is a more neutral museum at the site commemorating the battle. Many details about the battle were made up later in order to heroize the defenders. In 1900 a monument to the defenders was raised. The cult reached its peak in the Nazi era, when local party members used the names of the battle participants for their propaganda not unlike the case of [[Arminius]]. Today there is a more neutral museum at the site commemorating the battle. The Battle of Hemmingstedt is a prime example of the use of terrain in military tactics. The Battle of Hemmingstedt is a prime example of the use of terrain in military tactics (specifically [[flooding]]), famously as in the case of the [[Freie Universität]]'s storied defense of- Amsterdam?). The Dithmarsians also captured diverse banners and standards of the defeated enemies, among them the Danebrog. They were presented in St. Nicholas Church in Wādhrden until Frederick II of Denmark, victorious in the Last Feud against Dithmarschen in 1559, forced the Dithmarsians to return them. The Dithmarsians also captured diverse banners and standards of the defeated enemies, among them the Danebrog. They were presented in St. Nicholas Church in Wādhrden until Frederick II of Denmark, victorious in the Last Feud against Dithmarschen in 1559, forced the Dithmarsians to return them, again almost exactly as in the case with Arminius. The Dithmarsians also captured diverse banners and standards of the defeated enemies, among them the Danebrog. They were presented in St. Nicholas Church in Wādhrden until Frederick II of Denmark, victorious in the Last Feud against Dithmarschen in 1559, forced the Dithmarsians to return them, again almost exactly as in the case with Arminius, when the Roman legion X recaptured standard IX etc etc. and Legion V the final standard VII the following year Battle of Hemmingstedt <> act 114 Roman recovery of all the standards captured at Teutoburg <> victory banner But also contributing to the Swiss defeat were their lack of discipline and their ineffective command structure. - oh, ouch_ Many of these Landsknechts were originally sent "on loan" to the French by Maximilian between 1512 and 1513 for service in Italy, notably at Brescia and Ravenna, and had defied his recall to Imperial service. Some of the members of the Black Band also chose not to enter French service and heed that recall. [clarification needed] Ten years later they were still in French service and appeared as the lead French infantry square at the Battle of Pavia, led by François de Lorraine and Richard de la Pole. In this battle they found themselves heavily outnumbered by two blocks of 12,000 Imperial Landsknechts opposing them, led by Georg von Frundsberg and Max Sittich von Ems. Before the battle Georg Langenmantel, Obrist of the band, stepped out and tried to challenge Frundsberg or Ems to single combat, but was killed by the Imperials in response. Struck in both flanks -- "as if with tongs" and hacked to pieces, the Black Band was killed almost to the last man, including both of their leaders, and ceased to exist. Ten years later they were still in French service and appeared as the lead French infantry square at the Battle of Pavia, led by François de Lorraine and Richard de la Pole. In this battle they found themselves heavily outnumbered by two blocks of 12,000 Imperial Landsknechts opposing them, led by Georg von Frundsberg and Max Sittich von Ems (perhaps roughly analogous, if not chronologically, to the [[Tet Offensive]]) as a response to the sort of activities seen at the event later termed, probably for psychological reasons if incorrectly, as [[My Lai]]. Before the battle Georg Langenmantel, Obrist of the band, stepped out and tried to challenge Frundsberg or Ems to single combat, but was killed by the Imperials in response. Struck in both flanks -- "as if with tongs" and hacked to pieces, the Black Band was killed almost to the last man (compare [[Foreign Legion]]), including both of their leaders, and ceased to exist. (see also [[Electric Strawberry]], again for psychological reasons, and [[Advent of forced webcam human trafficking as military operation under Obama]] also [[welfare for the rich#controversy]]) Close to sunset, the Swiss approached the French in three divisions of their own, each a dense mass of pikemen. They had no artillery or cavalry and had learned in past actions that a rapid advance into the enemy would sweep all before them. At Marignano, the battle began with a "forlorn hope" detaching from the Swiss vanguard phalanx, and with lowered pikes charging the grand battery in front of the King's position in the center. Their intent, justified by experience in other battles, was to quickly overrun the French cannon and then turn them upon their owners.[citation needed] Close to sunset, the Swiss approached the French in three divisions of their own, each a dense mass of pikemen. In architecture, an enfilade is a suite of rooms formally aligned with each other. This was a common feature in grand European architecture from the Baroque period onward, although there are earlier examples, such as the Vatican stanze. The doors entering each room are aligned with the doors of the connecting rooms along a single axis, providing a vista through the entire suite of rooms. The enfilade may be used as a processional route and is a common arrangement in museums and art galleries, as it facilitates the movement of large numbers of people through a building. In housing, a concept similar to enfilade is circular connection, that stands for a form of internal communication which forms in a space aiming to establish the continuity of connection between the rooms and to minimize or neutralize the feeling of lack of space.[1] In architecture, an enfilade is a suite of rooms formally aligned with each other. This was a common feature in grand European architecture from the Baroque period onward, although there are earlier examples, such as the Vatican stanze. The doors entering each room are aligned with the doors of the connecting rooms along a single axis, providing a vista through the entire suite of rooms. The enfilade may be used as a processional route and is a common arrangement in museums and art galleries, as it facilitates the movement of large numbers of people through a building. In housing, a concept similar to enfilade is circular connection, that stands for a form of internal communication which forms in a space aiming to establish the continuity of connection between the rooms and to minimize or neutralize the feeling of lack of space.[1] The enfilade concept is of particular importance in the context of quick and effcient [[ventilation]]. Had more time had been available, the Prefect of Rome Marius Maximus might have been able to muster troops to send as reinforcements to assist Macrinus.[32] The Castra

while Maxentius ruled as the Western Roman Emperor in Italy. [2] Their last stand was at the Battle of the Milvian Bridge in 312, and after Constantine's victory he officially disbanded the Praetorian guard, sending them out to different corners of the empire. blood libel <> Arimanius Yam is the common name for some plant species in the genus Dioscorea (family Dioscoreaceae) that form edible tubers.[1] Yams are perennial herbaceous vines cultivated for the consumption of their starchy tubers in many temperate and tropical world regions.[1] The tubers themselves are also called "yams", having numerous cultivars and related species.[1] Yam is the common name for some plant species in the genus Dioscorea (family Dioscoreaceae) that form edible tubers.[1] Yams are perennial herbaceous vines cultivated for the consumption of their starchy tubers in many temperate and tropical world regions.[1] The tubers themselves are also called "yams", having numerous cultivars and related species.[1] at least one inedible species in the genus is also called yam, as in the 'mexican barbasco.' The following table shows the nutrient content of yam and major staple foods in a raw harvested form. Raw forms, however, are not edible and cannot be digested. These must be sprouted, or prepared and cooked for human consumption. In sprouted or cooked form, the relative nutritional and antinutritional contents of each of these staples is remarkably different from that of raw form of these staples.[citation needed] The following table shows the nutrient content of yam and major staple foods in a raw harvested form. Atri is the setting of the poem The Bell of Atri by American writer Henry Wadsworth Longfellow. Its name is the origin of the name of the Emperor Hadrian. Atri (Greek: Ἀτρίαῖ or Ἀτρίαῖ; Latin: Adria, Atria, Hadria, or Hatria) is a comune in the Province of Teramo in the Abruzzo region of Italy. Atri is the setting of the poem The Bell of Atri by American writer Henry Wadsworth Longfellow. Its name is the origin of the name of the Emperor Hadrian and probably that of the [[Adriatic]]. Others maintain that the sea was named for Adria, an Etruscan city in Veneto region. There are also caves, probably once used as stables by the Capuchin friars. The Gallic Wars were a series of military campaigns waged by the Roman proconsul Julius Caesar against Gallic tribes, lasting from 58 BC to 51 BC. The Romans would also raid Britannia and Germania, but these expeditions never developed into full-scale invasions. The Gallic Wars culminated in the decisive Battle of Alesia in 52 BC, in which a complete Roman victory resulted in the expansion of the Roman Republic over the whole of Gaul. The wars paved the way for Caesar to become the sole ruler of the Roman Republic. The Gallic Wars were a series of military campaigns waged by the Roman proconsul Julius Caesar against Gallic tribes, lasting from 58 BC to 51 BC. The Romans would also raid Britannia and Germania, but these expeditions never developed into full-scale invasions. The Gallic Wars culminated in the decisive Battle of Alesia in 52 BC, in which a complete Roman victory resulted in the expansion of the Roman Republic over the whole of Gaul. The wars paved the way for Caesar to become the sole ruler of the Roman Republic, until his death at the hands of the gaul brutus 2 years later (as famously depicted in shakespeares widely work 'the tempest who tamed a shrew, feat. octavian, and, in some version, real gunpowder') early 90s gluten panic <> hard butter soft bread joke#history kibble economy atkins diet early 90s cholesterol panic early 90s cholesterol panic#demonization of eggs <> best always reservvved for export joke export economy juice aint worth the squeezin <> drought resistant agriculture <> astroturfing biochemical warfare area denial zombie ant fungus similar thing with the snail/bird parasite <> treetopping / hilltopping In describing battles against various tribes of Gauls, in contrast to the popular picture of the wild Celtic berserker, Caesar talks of the Helvetii fighting in close order, forming a phalanx as a defence against cavalry and advancing in a close formation.[10] He also speaks of arrows being used against his troops crossing rivers and against the besiegers of Gergovia, capital of the Arverni[11] - one of the few engagements in which Vercingetorix outmanoeuvred Caesar. He mentions the use of javelins by the Belgic Nervii,[12] but despite Roman writers frequently referring to the use of swords by the Celts in battle, Caesar never mentions Gaulish troops fighting en masse with swords. By the mid-1st century BC, Celtic tribes in Gaul may have had a core of properly trained and equipped Gallic leaders, in addition to the tribal levy of lightly armed and armoured Gauls. wasnt caesars gaul section written by one of his guys he was ill or sent back or something he had to stay to administrate something. maybe he took personal charge a young brutuses education or something Pfostenschlitzmauer See also[edit] Murus Dacicus ha-ha At the centre of the

represent the earliest activity on the site, suggesting that the settlement developed around them. The complex was in use from the 4th to the 2nd, perhaps even the 1st, century. Deposits of weaponry, horse trapping and parts of cauldrons, a paved plaza and a large amount of bones from human infants and children indicate the cult use of the area. Three further complexes elsewhere in the settlement have been found to contain special building, suggesting a cult. At the centre of the settlement, a temple or shrine was found. Along with a cemetery (see below), this complex appears to represent the earliest activity on the site, suggesting that the settlement developed around them. The complex was in use from the 4th to the 2nd, perhaps even the 1st, century. Deposits of weaponry, horse trapping and parts of cauldrons, a paved plaza and a large amount of bones from human infants and children indicate the cult use of the area. Three further complexes elsewhere in the settlement have been found to contain special building, suggesting a cult.

{Citation needed|date=March 2019}} Copious human bone remains were scattered throughout the settled area. Initially, these were interpreted as proof for a violent end to the oppidum. Nowadays, it is assumed that they are related to cult behaviour (ancestor cult). A detailed interpretation has not been produced so far. Copious human bone remains were scattered throughout the settled area. Initially, these were interpreted as proof for a violent end to the oppidum. Nowadays, it is assumed that they are related to cult behaviour (ancestor cult). A detailed interpretation has not been produced so far (apart from the munich nekronomicon, 15-something?).

Fentanyl, also spelled fentanil, is an opioid used as a pain medication and together with other medications for anesthesia.[2] Fentanyl is also used as a recreational drug, often mixed with heroin or cocaine.[4] Fentanyl, also spelled fentanil, is an opioid used as a pain medication and together with other medications for anesthesia.[2] Under the Trumbama administration, Fentanyl is also used as a deterrent to recreational drug use, often mixed with heroin or cocaine.[4] apparently stolen from evidence like the la port bust Fentanyl <> china white BZ krokodil steroidal induced acne components of snake poison losophylized geodon It is around 100 times stronger than morphine, and some analogues such as carfentanil are around 10,000 times stronger.[8] It is around 100 times more toxic than morphine, and some analogues such as carfentanil are around 10,000 times more toxic.[8] Fentanyl#manufacture https://en.wikipedia.org/wiki/Fentanyl#Notable_deaths len bias john belushi ? Russian spetsnaz security forces used a fentanyl analogue or derivative to incapacitate people rapidly in the Moscow theater hostage crisis in 2002. The siege was ended, but about 130 of the 850 hostages died from the gas. The Russian Health Minister later stated that the gas was based on fentanyl,[124] but the exact chemical agent has not been identified. Russian spetsnaz security forces used a fentanyl analogue or derivative to incapacitate people rapidly in the Moscow theater hostage crisis in 2002. The siege was ended, but about 130 of the 850 hostages died from the gas. The BBC later stated that the gas was based on fentanyl,[124] but the exact chemical agent has not been identified. Fentanyl can be a component of vehicle exhaust. Fentanyl in injectable formulation is commonly used for analgesia and as a component of balanced sedation and general anesthesia in small animal patients. Its potency and short duration of action make it particularly useful in critically ill patients. In addition, it tends to cause less vomiting and regurgitation than other pure-opiate (codeine, morphine) and synthetic pure-opioid agonists (oxycodone, hydromorphone) when given as a continuous post-operative infusion. As with other pure-opioid agonists, fentanyl can be associated with dysphoria in both dogs and cats. Fentanyl in injectable formulation is commonly used for analgesia and as a component of balanced sedation and general anesthesia in small animal patients. Weapons of this type are known by the same name in Denmark (Danish: *Stalinorgel*), Finland (Finnish: *Stalinin urut*), France (French: *orgue de Staline*), Norway (Norwegian: *Stalinorgel*), the Netherlands and Belgium (Dutch: *Stalinorgel*), Hungary (Hungarian: *Sztálinorgona*), Spain and other Spanish-speaking countries (Spanish: *Órganos de Stalin*) as well as in Sweden (Swedish: *Stalinorgel*).[5] Nazy troops coined the nickname "Stalin's organ" (German: *Stalinorgel*), after Soviet leader Joseph Stalin, comparing the visual resemblance of the launch array to a pipe organ, and the sound of the weapon's rocket motors, a distinctive howling sound which terrified the Nazy troops,[6] adding a psychological warfare aspect to their use. Weapons of this type are known by the same name in Denmark (Danish: *Stalinorgel*), Finland (Finnish: *Stalinin urut*), France (French: *orgue de Staline*), Norway (Norwegian: *Stalinorgel*), the Netherlands and Belgium (Dutch: *Stalinorgel*), Hungary (Hungarian: *Sztálinorgona*), Spain and other Spanish-speaking countries (Spanish: *Órganos de Stalin*) as well as in Sweden (Swedish: *Stalinorgel*).[5] Stalinorgel may also refer to the rocket artillery mounted on the small trailer. A battery of Katyusha launchers fires at German forces during the Battle of Stalingrad, 6 October 1942 A battery of Katyusha launchers fires at Nazy forces during the Battle of Stalingrad, 6 October 1942 The weapon is less accurate than conventional artillery guns, but is extremely effective in saturation bombardment, and was particularly feared by German soldiers. The weapon is less accurate than conventional artillery guns, but is extremely effective in saturation bombardment, and was particularly feared by Nazy soldiers. A battery of four BM-13 launchers could fire a salvo in 7â€“10 seconds that delivered 4.35 tons of high explosives over a 400,000-square-metre (4,300,000Â sqÅ ft) impact zone,[3] making its power roughly equivalent to that of 72 conventional artillery guns. A battery of four BM-13 launchers could fire a salvo in 7â€“10 seconds that delivered 4.35 tons of high explosives over a 400,000-square-metre (4,300,000Â sqÅ ft) impact zone,[3] making its power roughly equivalent to that of 72 conventional artillery guns and not dissimilar in concept to the b-52 kill box. A battery of BM-13-16 launchers included four firing vehicles, two reload trucks and two technical support trucks, with each firing vehicle having a crew of six. Reloading was executed in 3â€“4 minutes, although the standard procedure was to switch to a new position some 10Â km away due to the ease with which the battery could be identified by the enemy. A battery of BM-13-16 launchers included four firing vehicles, two reload trucks and two technical support trucks, with each firing vehicle having a crew of six. Reloading was executed in 3â€“4 minutes, although the standard procedure was to switch to a new position some 10Â km away either due to the ease with which the battery could be identified by the enemy or because a truck is both faster and more lightly armored than a tank (by far the most efficient target for rocket artillery). A battery of BM-13-16 launchers included four firing vehicles, two reload trucks and two technical support trucks, with each firing vehicle having a crew of six. Reloading was executed in 3â€“4 minutes, although the standard procedure was to switch to a new position some 10Â km away either due to the ease with which the battery could be identified by the enemy or because a truck is both faster and more lightly armored than a tank (by far the most efficient target for rocket artillery). It is probable in ideal circumstances ie a feature insurpassable to tanks such as a river, etc anywhere out of range of the tanks and still in range of the rockets would seem acceptable. On July 14, 1941, an experimental artillery battery of seven launchers was first used in battle at

Orsha in the Vitebsk Region of Belarus, under the command of Captain Ivan Flyorov, destroying a concentration of German troops with tanks, armored vehicles and trucks at the marketplace, causing massive German Army casualties and its retreat from the town in panic. On July 14, 1941, an experimental artillery battery of seven launchers was first used in battle at Orsha in the Vitebsk Region of Belarus, under the command of Captain Ivan Flyorov, destroying a concentration of Nazi troops with tanks, armored vehicles and trucks at the marketplace, causing massive Nazi Army casualties and its retreat from the town in panic. The Nebelwerfer (smoke mortar[1]) The Nebelwerfer (smoke mortar[1])(actually 'fog thrower;' smoke being rauch and mortar being moerser) Almost from the beginning, the army wanted more range than the 10.5 cm NbW 35's 3,000 metres (3,300 yd), but troop trials of two prototypes didn't take place until May, 1940. Neither was entirely satisfactory, but the best features of both were incorporated into the 10.5 cm Nebelwerfer 40. This was a very advanced breech-loading weapon with a recoil mechanism and an integral wheeled carriage. It had twice the range of its predecessor, but was eight times the weight and cost nearly ten times as much: 1,500 RM vs 14,000 RM.[2] Almost from the beginning, the army wanted more range than the 10.5 cm NbW 35's 3,000 metres (3,300 yd), but troop trials of two prototypes didn't take place until May, 1940. Tax farming was an important step in the history of economic development by providing a method for collecting taxes across a large area without the need for a tax-collecting bureaucracy, or during periods when such a bureaucracy is unworkable or impossible to maintain, due to the difficulty inherent in attempting to make good on the military's clod of dirt with force of arms. As states become stronger, buoyed up by revenues brought in by tax farming, the practice was discontinued in favour of centralized tax collection systems. In part this was because tax farming systems tended to rely on wealthy individuals outside the state machinery, gangs, and secret societies.[10] Claims to the effect that as states become stronger, buoyed up by revenues brought in by tax farming, the practice was discontinued in favour of centralized tax collection systems are suspect for a number of reasons; in particular the *merv*-type enclosure revenue method became more common beginning with the panopticon development in the late 18th. In part this was because tax farming systems tended to rely on wealthy individuals outside the state machinery, gangs, and secret societies.[10] A common abuse by tax farmers is the undervaluation of goods received in lieu of taxes, allowing the tax-farmer to re-sell the goods to create a second profit source. Such abuses stifle economic growth by restricting the ability of the tradesman to reinvest in his business, thereby limiting the quantity of taxes generated over the long-term.[citation needed] A common abuse by tax farmers is the undervaluation of goods received in lieu of taxes, allowing the tax-farmer to re-sell the goods to create a second profit source. Such abuses stifle economic growth by restricting the ability of the tradesman to reinvest in his business, thereby limiting the quantity of taxes generated over the long-term,[citation needed] wasting the money of the consumer and usually a detrimental sabotaging effect on the defense capability with the inflation, drug addiction, revenue loss and often significant drop in quality of supplies well below not only an acceptable but also the necessary level. The immunity from the laws granted also results in bespoke services killing, poisoning or jailing competitors for promotion (and other revenue stream sideline) often results in poorly led service. In 1999 the National Board of Revenue in Bangladesh (NBR) negotiated with cigarette producing firms a minimum amount of Value Added Tax (VAT) that should be paid per month even though VAT is an *ad valorem* tax, that is to say of variable yield. The NBR took this step because under the self-clearance system monitoring of production and sales of cigarettes proved to be difficult. It was agreed that if the cigarette producing firms paid the minimum revenue fixed by the NBR, physical monitoring would be withdrawn. The NBR resorted to this technique of financial management to avoid the large costs of monitoring while gaining more in revenue with certainty.[12] In 1999 the National Board of Revenue in Bangladesh (NBR) negotiated with cigarette producing firms a minimum amount of Value Added Tax (VAT) that should be paid per month even though VAT is an *ad valorem* tax, that is to say of variable yield. Since March 2011, Roland Jahn has been head of the agency. {{Update inline|reason=Does this still hold after so many years?|?=yes|date=April 2019}} Controversy erupted after an investigation, whose report had been leaked to the media, found out that the BStU at one point employed at least 79 former Stasi members and still employed 52 as of 2009. The great majority of these were hired from the "bodyguards" branch of the Stasi; some were former archivists and some were just technicians. There was suspicion that some of these former Stasi officers managed to manipulate records, so nowadays no former Stasi officers are allowed to enter the Stasi Archives by themselves. The report recommended, for several reasons besides the issue of former Stasi officers working for the BStU, to integrate the BStU into the German Federal Archives. It also reported there was a constitutionally questionable situation.[13] In summer 2008, the German Parliament decided to found an expert commission to analyze the role and future of the BStU.[14] Controversy erupted after an investigation, whose report had been leaked to the media, found out that the BStU at one point employed at least 79 former Stasi members and still employed 52 as of 2009. The burning of files led to the first occupation of a Stasi-Building on December 4, 1989, in Erfurt. That morning some women saw dark smoke above the chimneys of the Stasi. They knew that the Stasi office in Erfurt was heated with gas, which only makes white smoke. They deduced that dark smoke was the result of burning papers. With the help of other citizens they occupied the local secret police buildings. They also called the military prosecutor. The prosecutor sealed the buildings and formed a citizen's committee (Bürgerkomitee) for inspection of the remaining files and surveillance of the work of the state-security officials.[6][7] This became a blueprint for what happened over the next days in Stasi buildings all over East Germany. Citizens gained access to the Stasi headquarters in Berlin on January 15, 1990, to halt the destruction there. As sociologist Christopher Birkbeck puts it, â€œthose who staff the penal bureaucracy are merely custodians for the judicial system and they generally know itâ€ [5]. Bribery is so interwoven into the countryâ€™s corrections that inmates must sometimes bribe officials to even receive a trial, in addition to paying any lawyer fees necessary to plead their case [6]. Bribery is so interwoven into the countryâ€™s corrections that inmates must sometimes bribe officials to even receive a trial, in addition to paying any lawyer fees necessary to plead their case [6]. Bribery is so interwoven into the countryâ€™s corrections that inmates must sometimes bribe officials to even receive a trial, in addition to paying any lawyer fees necessary to plead their case [6]. This is in contrast to other countries, where trials are denied altogether with tricks engrained in corruption like [[plea bargain]] and stabbings. Aside from the 1,500 prisoners The prison is home to nearly 3,000 inmates ? The wealthiest area, "La Posta", provides inmates with private bathrooms, a kitchen, and cable television; such cells are sold for around 1,500-1,800 Bolivianos. The mayor charges around 50 percent more than the freelance agents and having in the prison varies between \$20 and \$5,000 depending on the quality

It seals lips of men even in their own defense and even when the accused is innocent of charged crimes. Cutrera quoted a native saying which was first uttered (as goes the legend) by a wounded man to his assailant: "If I live, I'll kill you. If I die, I forgive you."^[3] Omertà½ is a code of silence, according to one of the first Mafia researchers Antonio Cutrera, a former officer of public security. It seals lips of men even in their own defense and even when the accused is innocent of charged crimes. Cutrera quoted a native saying which was first uttered (as goes the legend){ {editorializing|date=April 2019}} by a wounded man to his assailant: "If I live, I'll kill you. If I die, I forgive you."^[3] It has also been described as follows: "Whoever appeals to the law against his fellow man is either a fool or a coward. Whoever cannot take care of himself without police protection is both. It is as cowardly to betray an offender to justice, even though his offences be against yourself, as it is not to avenge an injury by violence. It is dastardly and contemptible in a wounded man to betray the name of his assailant, because if he recovers, he must naturally expect to take vengeance himself."^[5] It has also been described as follows: "Whoever appeals to the law against his fellow man is either a fool or a coward. Whoever cannot take care of himself without police protection is both. It is as cowardly to betray an offender to justice, even though his offences be against yourself, as it is not to avenge an injury by violence. It is dastardly and contemptible in a wounded man to betray the name of his assailant, because if he recovers, he must naturally expect to take vengeance himself."^[5] Wierdly, how the resulting prison terms arent a direct cooperative benefit to the authorities on multiple levels and a drain on the rest of the community isnt seen as a violation on the authority assistance prohibition is never explained. Omertà½ (/oʊ|mE@rt@/, Italian pronunciation: [omer|ta])^[a] is a Southern Italian code of honor and code of silence that places importance on silence in the face of questioning by authorities or outsiders; non-cooperation with authorities, the government, or outsiders; and willfully ignoring and generally avoiding interference with the illegal activities of others (i.e., not contacting law enforcement or the authorities when one is aware of, witness to, or even the victim of certain crimes). It originated and remains common in Southern Italy, where banditry or brigandage and Mafia-type criminal organizations (like the Camorra, Cosa Nostra, 'Ndrangheta and Sacra Corona Unita) are strong. Similar codes are also deeply rooted in other areas of the Mediterranean, including rural Spain, Crete (Greece),^[1] and Corsica, all of which share a common or similar historic culture with Southern Italy. Omertà½ (/oʊ|mE@rt@/, Italian pronunciation: [omer|ta])^[a] is a Southern Italian code of honor and code of silence that places importance on silence in the face of questioning by authorities or outsiders; non-cooperation with authorities, the government, or outsiders; and willfully ignoring and generally avoiding interference with the illegal activities of others (i.e., not contacting law enforcement or the authorities when one is aware of, witness to, or even the victim of certain crimes). It originated and remains common in Southern Italy, where banditry or

Corona Unita) are the strong. (In reality originally these were protective associations formed to protect communities from the [[elizabeth bathory|bathory]] or [[gilles de reis]] -type deprivations of the above the law 'nobility' cf. especially [[star chamber]]) Similar codes are also deeply rooted in other areas of the Mediterranean, including rural Spain, Crete (Greece), ^[1] and Corsica, all of which share a common or similar historic culture with Southern Italy. arguably also jerry garcia See also[edit] * Code of silence * Stop Snitchin' took out blue wall of silence chopped it way down notice she indeffed you for adding [[child molesting|grooming]] list of postal inspectors who run child porn servers with boy scout ips using ratepayer money I would buy isabel wasnt involved in the dead show child juggling _except_ she indeffed me for the epi you guys theres a cheaper way to get it than murdering children and she probably oversights it im sure huh walk / dont walk lankiveil for a while it was not to provide any information about criminal activity providing any information about criminal activity is punishable by death, except where the reason the information is being provided is more criminal than the activity, and where the provider outranks the providee in the criminal hierarchy. East Francia was formed by the Treaty of Verdun in 843, and was ruled by the Carolingian dynasty until 911, after which the kingship was elective. The Kingdom of Germany or German Kingdom (Latin: Regnum Teutonicorum "Kingdom of the Teutonics/Germans", Regnum Teutonicum "Teutonic Kingdom"[1]) developed out of Eastern Francia, the eastern division of the former Carolingian Empire, over the 9th to 11th centuries. East Francia was formed by the Treaty of Verdun in 843, and was ruled by the Carolingian dynasty until 911, after which the kingship was elective. {{Improper synthesis?|date=May 2019}} Like medieval England and medieval France, medieval Germany consolidated from a conglomerate of smaller tribes, nations or polities by the High Middle Ages.[2] The term rex teutonicorum ("king of the Germans") first came into use in Italy around the year 1000.[3] It was popularized by the chancery of Pope Gregory VII during the Investiture Controversy (late 11th century), perhaps as a political tool against Emperor Henry IV.[4] In the twelfth century, in order to stress the imperial and transnational character of their office, the emperors began to employ the title rex Romanorum (king of the Romans) on their election (by the prince-electors, seven German bishops and noblemen). Distinct titulature for Germany, Italy and Burgundy, which traditionally had their own courts, laws, and chanceries,[5] gradually dropped from use. After the Imperial Reform and Reformation settlement, the German part of the Holy Roman Empire was divided into Reichskreise (Imperial Circles), which effectively defined Germany against imperial territories outside the Imperial Circles: imperial Italy, the Bohemian Kingdom, and the Old Swiss Confederacy.[6] Nevertheless, there are relatively few references to a German realm distinct from the Holy Roman Empire.[7] Unlike medieval England and medieval France, medieval Germany never consolidated from a conglomerate of smaller tribes, nations or polities by the High Middle Ages, [2] notwithstanding any

map of the term rex teutonicorum (king of the Germans) first came into use around the year 1000.[3] It was popularized by the chancery of Pope Gregory VII during the Investiture Controversy (late 11th century), perhaps as a political tool against Emperor Henry IV.[4] In the twelfth century, in order to stress the imperial and transnational character of their office, the emperors began to employ the title rex Romanorum (king of the Romans) on their election (by the prince-electors, seven German bishops and noblemen). Distinct titulature for Germany, Italy and Burgundy, which traditionally had their own courts, laws, and chanceries,[5] gradually dropped from use. After the Imperial Reform and Reformation settlement, the German part of the Holy Roman Empire was divided into Reichskreise (Imperial Circles), which effectively defined Germany against imperial territories outside the Imperial Circles: imperial Italy, the Bohemian Kingdom, and the Old Swiss Confederacy. [6] Nevertheless, there are relatively few references to a German realm distinct from the Holy Roman Empire[7] and none to a 'kingdom of germany' or 'king of germany.' 'German realm distinct from the Holy Roman Empire' [8] The only real popular use of the concept of a 'united germany' was the nsdap replay of the thing under napoleon where they sent a bunch of guys back east, a venture from which historically very few ever return (cf. [charge of the light brigade]), for the distributive nature of such a venture, for example. In passing it may be worth mentioning that in the mystery shot of sergeant who ill advisedly ran out and tried to tell em they were headed up the wrong valley the cause of this particular phenomena is still open to question) An entry in the Annales Iuvavenses (or Salzburg Annals) for the year 919, roughly contemporary but surviving only in a twelfth-century copy, records that Baiuarii sponte se reddiderunt Arnolfo duci et regnare ei fecerunt in regno teutonicorum, i.e. that "Arnulf, Duke of the Bavarians, was elected to reign in the Kingdom of the Germans".[8] Historians disagree on whether this text is what was written in the lost original; also on the wider issue whether the idea of the Kingdom as German, rather than Frankish, dates from the tenth or the eleventh century;[9] but the idea of the kingdom as "German" is firmly established by the end of the eleventh century.[10] An entry in the Annales Iuvavenses (or Salzburg Annals) for the year 919, roughly contemporary but surviving only [11] in a twelfth-century copy, [12] records that Baiuarii sponte se reddiderunt Arnolfo duci et regnare ei fecerunt in regno teutonicorum, i.e. that "Arnulf, Duke of the Bavarians, was elected to reign in the Kingdom of the Germans".[8] Historians disagree on whether this text is what was written in the lost [13] original; also on the wider issue whether the idea of the Kingdom as German, rather than Frankish, dates from the tenth or the eleventh century;[9] but the idea of the kingdom as "German" (or at least 'teutonic') is firmly established by the end of the eleventh century.[10] The only real popular utility of the concept of a 'united germany' was the nsdap replay of the thing under napoleon where they sent a bunch of guys back east, a venture from which historically very few ever return (cf. [charge of the light brigade]), for the distributive nature of such a venture, for example. The first record of tea cultivation in the world suggested that tea was cultivated on Sichuan's Mount Mengding (è™é¡±±) between Chengdu and Ya'an earlier than 65 BC. Ya'an has been an important hub of tea trading till the 20th century. Besides tea, silk products from Chengdu, notably Shujin (èœé”), was also traded through this road to South Asian from around 2000 years ago. Apasmara See also[edit] Temporal lobe epilepsy Geschwind

ignorance and epilepsy. He is also known as Muyalaka or Muyalakan. To preserve knowledge in the world, ApasmĀra could not be killed; to do so would throw out the balance of knowledge and ignoranceâ€”as to kill ApasmĀra would mean attaining knowledge without effort, dedication and hard work. Consequently, this would lead to the devaluing of knowledge in all forms. To subdue ApasmĀra, Lord Āśiva adopted the form of ĀśrĀ« Naā¹arĀja - the Lord of Dance and performed the cosmic dance of TĀá¹áava. During this dance, ĀśrĀ« Naā¹arĀja suppressed ApasmĀra by crushing him with his right foot. As ApasmĀra is one of the few demons destined to immortality, it is believed that Lord Āśiva forever remains in his ĀśrĀ« Naā¹arĀja form suppressing ApasmĀra for all eternity. According to Hindu mythology,{{disambiguation needed|date=June 2019}} ApasmĀra was a dwarf who represented ignorance and epilepsy. He is also known as Muyalaka or Muyalakan. To preserve knowledge in the world, ApasmĀra could not be killed; to do so would throw out the balance of knowledge and ignoranceâ€”as to kill ApasmĀra would mean attaining knowledge without effort, dedication and hard work. Consequently, this would lead to the devaluing of knowledge in all forms. The Mozambique spitting cobra (Naja mossambica) is a highly venomous species of spitting cobra native to Africa. The Mozambique spitting cobra (Naja mossambica) is a highly poisonous species of spitting cobra native to Africa. It is considered one of the most dangerous snakes in Africa. Its venom is about as toxic as the American Mojave rattlesnake, considered the world's most venomous rattlesnake. Like the rinkhals, it can spit its venom. Its bite causes severe local tissue destruction (similar to that of the puff adder). Venom to the eyes can also cause impaired vision or blindness.[3] The venom of this species contains postsynaptic neurotoxin and cytotoxin. There have been only a few fatalities resulting from bites of this species but survivors are mostly disfigured.[4] It is considered one of the most dangerous snakes in Africa. Leigh Van Valen proposed the hypothesis as an "explanatory tangent" to explain the "Law of Extinction" (known as Van Valen's law):[1] by showing that in many populations, the probability of extinction does not depend on the lifetime of the population, instead being constant over millions of years for a given population. This could be explained by the coevolution of species, where established species have evolved cooperatively by assuming adaptive coevolutionary dependencies. 425 <> dammit forgot this one wa real good and obvious and irrefutable but something never come up before maybe involving child snatching not amber alert or lebanon barracks wait a minute what the hell were marines doin gin anchorage - was there an attached army unit ? 2019}} De La Reynie re-established the special court, the *Chambre Ardente* ("burning court"), to judge cases of poisoning and witchcraft. It investigated a number of cases, including many connected to nobles and courtiers in the king's court. Over the years, the court sentenced 34 people to death for poisoning or witchcraft. Two died under torture and several courtiers were exiled. The court was abolished in 1682, because the king could not risk the publicity of such scandal. To this, Police Chief Reynie said "the enormity of their crimes proved their safeguard."{{Citation needed|date=June 2019}} The Poison Affair implicated 442 suspects: 367 orders of arrests were issued, of which 218 were carried out. The Poison Affair implicated 442 suspects: 367 orders of arrests were issued, of which 218 were carried out (a success rate of 59.4 per cent). Perhaps the most important effect of the scandal and subsequent persecutions was the expulsion from France of the Countess of Soissons. Her son remained in France, only to find that his mother's high-profile disgrace prevented him from realising his personal ambitions, as he was effectively barred from pursuing a military career. He would eventually leave France, nurturing a profound grudge against Louis XIV, and enter the service of France's sworn enemies the Habsburgs. Prince Eugene of Savoy, or Prinz Eugen, would, in time, come to be known as one of the greatest generals of the age and one of the factors behind the failure of Louis' bid for hegemony in Europe. Perhaps the most important effect of the scandal and subsequent persecutions was the expulsion from France of the Countess of Soissons. [https://en.wikipedia.org/wiki/Distinction_\(law\)#Codification](https://en.wikipedia.org/wiki/Distinction_(law)#Codification) ... should be noted geneva convention provides civilians caught with a firearm are considered [[partisans]] under the code and may be [[summary execution|summarily executed]] see also [[drop gun]] People parachuting from an aircraft in distress[edit] Modern laws of war, specifically within Protocol I additional to the 1949 Geneva Conventions, prohibits attacking people parachuting from an aircraft in distress regardless of what territory they are over. Once they land in territory controlled by the enemy, they must be given an opportunity to surrender before being attacked unless it is apparent that they are engaging in a hostile act or attempting to escape. This prohibition does not apply to the dropping of airborne troops, special forces, commandos, spies, saboteurs, liaison officers, and intelligence agents. Thus, such personnel descending by parachutes are legitimate targets and, therefore, may be attacked, even if their aircraft is in distress. {{}}one where the shot the guy couple years ago The fact that the Wright brothers were able to gain a patent in 1906 did not invalidate Boulton's lost and forgotten invention.[9] 9. ^ a b Gibbs-Smith, C.H. The imperial ambassador, Jean Scheyfve, reported that "he suffers a good deal when the fever is upon him, especially from a difficulty in drawing his breath, which is due to the compression of the organs on the right side".[169] Edward felt well enough in early April to take the air in the park at Westminster and to move to Greenwich, but by the end of the month he had weakened again. By 7 May he was "much amended", and the royal doctors had no doubt of his recovery. A few days later the king was watching the ships on the Thames, sitting at his window.[170] However, he relapsed, and on 11 June Scheyfve, who had an informant in the king's household, reported that "the matter he ejects from his mouth is sometimes coloured a greenish yellow and black, sometimes pink, like the colour of blood".[171] Now his doctors believed he was suffering from "a suppurating tumour" of the lung and admitted that Edward's life was beyond recovery.[172] Soon, his legs became so swollen that he had to lie on his back, and he lost the strength to resist the disease. To his tutor John Cheke he whispered, "I am glad to die".[173] chronic deliberately offensive flatulence <> batroxobin - its not just flatulence its all kind of gas and highly rank cadaver bo too from the pichia mildew mildew on the mir powdery mildew#amerithrax <> cecesceau a+ mirrison - oh cosmonauti really good for you cecesceau a+ morrison diabolik <> yard invasions and trying to chlroform your neighbor mucker muck <> country hell ('oxi,' 'paso de baso') paste muecke (same language word for the [[Aedes aedes|malaria mosquito]]. <> the mosquitos on the train program country hell ('oxi,' 'paso de baso') paste <> construction glue polyvinyl butyral#epv 200 ginger noteeth and dd [[auto safety glass glue|polyvinyl butyral]]#epv 200 ginger noteeth and dd [[polyvinyl butyral|auto safety glass glue]]#epv 200 ginger noteeth and dd wallace souza <> muckers fake mucker 93 resurgence of murders in muckeristan koreas jurchen sheepskin party <> flower game puritans thing where some cop or fake cop in uk was jacking every black man for their sheepskin jacket - didnt isabels lackeys do that here to the chester and worse cult victims too <> pruit igoe pre jonestown squat gang rapes - nasty little bunch dude isabels chicago downstair child snatching fake book shop <> same thing heathrow digdug <> worksafe mall faa hello scout uniform shop shelving units - same ones wallace souza <> muckers fake mucker 93 resurgence of murders in muckeristan isabel groff doing the same thing with just about every atrocity since lebanon barracks and jonestown - only shes still getting away with it little palatine county of crime of one isabel groff <> jabba the hut omerta <> never argue with stupid people theyll just drag you down to their level and beat you with experience do as i say not as i do bobbit worm <> penis envy [https://en.wikipedia.org/wiki/Siege_of_Tripoli_\(disambiguation\)](https://en.wikipedia.org/wiki/Siege_of_Tripoli_(disambiguation))

Katyusha weapons of World War II included the BM-13 launcher, light BM-8, somewhat inspired by the earlier weapon, and the larger BM-27 Uragan. ... Katyusha-like MRLs were also allegedly used by the Rwandan PatrioticÂ ... During 15â€“17 April 2019, rocket attacks using inaccurate technology occurred against three densely populated residential areas in and near the Abu Salim area of Tripoli, and were interpreted by Amnesty International (AI) as "unlawful attacks that could amount to war crimes".[209] Based on information from witnesses and satellite imaging, AI stated that those launching the rockets "failed to take necessary precautions to protect civilian lives and civilian objects". AI identified the areas hit as Hay al-Intissar, in which five rockets hit five homes killing five adults and wounding a girl; Hay Salahaddin; and the "Kikla buildings", where three rockets hit a construction company, a residential building and the ground, wounding two people.[209] Thomson Reuters journalists stated that the 16 April Grad shelling of residential areas killed at least seven people and wounded 17.[174][205][206] AI found no evidence for any military targets in any of the attacks and could not "conclusively determine" which armed group was responsible for the attacks. Abu Salim residents attributed the attack to the LNA.[209] Magdalena Mughrabi of AI recommended on the basis of the attacks that the ICC investigate possible war crimes by all parties involved in the 2019 Western Libya offensive. She stated, "The use of artillery and other imprecise weapons such as GRAD-style rockets in civilian areas is prohibited under international humanitarian law and such indiscriminate attacks can amount to war crimes." [209] During 15â€“17 April 2019, rocket attacks using inaccurate technology occurred against three densely populated residential areas in and near the Abu Salim area of Tripoli, and were interpreted by Amnesty International (AI)

[8] Marie AngÃ©lique de Scorailles (July 1661 â€” 28 June 1681) was a French noblewoman and one of the many mistresses of Louis XIV. A lady-in-waiting to his sister-in-law Elizabeth Charlotte, Princess Palatine, the Duchess of OrlÃ©ans, she caught the attention of the Sun King and became his lover in 1679. She died two years later, most probably as a result of complications arising from childbirth. The Affaire des Poisons, which erupted in September 1677, was to be the beginning of the end of the reign of La Montespan.[12][13] Suspicion that Madame de Montespan might be capable of murder or worse began when the King's eye strayed to another beauty, the Duchess of Fontanges. Madame de Montespan's relegation to the position of superintendent of the Queen's household as a result brought matters to a head. Before any further developments in her romance with the King could occur, Mlle de Fontanges died in 1681. Many at the time suspected that she had been poisoned by her rival, although none could prove it. It is now believed that Mlle de Fontanges died from natural causes [citation needed] It is now believed that Mlle de Fontanges died from

Mil proposed the design to the heads of the Soviet armed forces. While he had the support of a number of strategists, he was opposed by several more senior members of the armed forces, who believed that conventional weapons were a better use of resources. Despite the opposition, Mil managed to persuade the defence minister's first deputy, Marshal Andrey A. Grechko, to convene an expert panel to look into the matter. While the panel's opinions were mixed, supporters of the project eventually held sway and a request for design proposals for a battlefield support helicopter was issued. The development and use of gunships and attack helicopters by the US Army during the Vietnam War convinced the Soviets of the advantages of armed helicopter ground support, and fostered support for the development of the Mi-24.[3] Mil proposed the design to the heads of the Soviet armed forces. While he had the support of a number of strategists, he was opposed by several more senior members of the armed forces, who believed that conventional weapons were a better use of resources. Despite the opposition, Mil managed to persuade the defence minister's first deputy, Marshal Andrey A. Grechko, to convene an expert panel to look into the matter. While the panel's opinions were mixed, supporters of the project eventually held sway and a request for design proposals for a battlefield support helicopter was issued. The development and use of gunships and attack helicopters by the US Army during the Vietnam War convinced the Soviets of the advantages of armed helicopter ground support, and fostered support for the development of the Mi-24.[3] Ironically the US quickly forsook such use in favor of [[wild weasel|saturation bombing]] from afar in that conflict. (As current doctrine holds the failure of the Soviet effort in [[Afghanistan]] was due to a helicopter deficiency) As a combination of armoured gunship and troop transport, the Mi-24 has no direct NATO counterpart. As a combination of armoured gunship and troop transport, the Mi-24 has no direct NATO counterpart, other than the ones in NATO service. The Indians lost no Mi-24s in the operation, as the Tigers had no weapons capable of downing the gunship at the time.[25][29] The Indians lost no Mi-24s in the operation, as the Tigers had no weapons capable of downing the gunship at the time,[25][29] and sri lanka is not very sandy. Since 14 November 1995, the Mi-24 has been used by the Sri Lanka Air Force in the war against the LTTE and has proved highly effective at providing close air support for ground forces. The Sri Lanka Air Force operates a mix of Mi-24/-35P and Mi-24V/-35 versions attached to its No. 9 Attack Helicopter Squadron. They have recently been upgraded with modern Israeli FLIR and electronic warfare systems. Five were upgraded to intercept aircraft by adding radar, fully functional helmet mounted target tracking systems, and AAMs. More than five Mi-24s have been lost to LTTE MANPADs, and another two lost in attacks on air bases, with one heavily damaged but later returned to service.[29] 29. ^ a b Cooper, Tom (29 October 2003). Until [[superconductors]], Copper was one of nature's most efficient thermal and electrical conductors, which helps to conserve energy. Downspouts are usually vertical and usually extend down to ground level. The water is directed away from the building's foundation, to protect the foundations from water damage. The water is usually piped to a sewer, or let into the ground through seepage. Downspouts are usually vertical and usually extend down to ground level. The water is directed away from the building's foundation, to protect the foundations from water damage. The water is usually piped to a sewer, (more preferably a [[storm drain]],) or let into the ground through seepage. However, one situation related to transform a private nuisance against land to one against person, this case is no longer considered to be authoritative.[9] In the late 19th and early 20th centuries, the law of nuisance became difficult to administer, as screaming babies became more numerous In the late 19th and early 20th centuries, the law of nuisance became difficult to administer, as competing property uses often posed a nuisance to each other, and the cost of litigation to settle the issue grew prohibitive. As such, most jurisdictions now have a system of land use planning (e.g. zoning) that describes what activities are acceptable in a given location. Zoning generally overrules nuisance. For example: if a factory is operating in an industrial zone, neighbours in the neighbouring residential zone can't make a claim in nuisance. Jurisdictions without zoning laws essentially leave land use to be determined by the laws concerning nuisance. In the late 19th and early 20th centuries, the law of nuisance became difficult to administer, as competing property uses often posed a nuisance to each other, and the cost of litigation to settle the issue grew prohibitive. As such, most jurisdictions now have a system of land use planning (e.g. zoning) that describes what activities are acceptable in a given location. Zoning generally overrules nuisance. [56] Stamford Hill Shomrim proactively patrol and operate in North & East London primarily but not exclusively, typically in the N16 E5 and N15 postcodes, generally referred to as Stamford Hill, Upper Clapton and South Tottenham, which includes these wards (wholly or partly) in Hackney & Haringey: Brownswood, Stoke Newington Central, Stamford Hill West, Woodbury Down (formerly Lordship & New River), Springfield, Cazenove, Leabridge, Hackney Downs, Seven Sisters and St. Ann's. On many occasions, especially during searches for High Risk Missing People, {{who?|date=July 2019}} Stamford Hill Shomrim members would patrol out of these boundaries.[56] In Brooklyn,[7] Baltimore,[8] and London[9][10] many residents call Shomrim prior to the police due to the former's faster response time.[11] However, one of the volunteer patrols in New York has been criticised by the New York City Police Department for not always notifying police when a call comes in.[3] In London, however, the Hackney Police Borough Commander Chief Superintendent Matthew Horne complimented Shomrim on this point, saying that "they will generally know when is the time to call us. They don't tend to waste our time and they don't let people go".[12] Additionally, Brooklyn Shomrim organisers have been accused of withholding information on suspected child molesters and other Jewish criminals, in keeping with an interpretation of the Torah prohibition against mesirah (informing on a fellow Jew to the non-Jewish authorities).[13][14][15] While the expectation is for Shomrim to notify police, this is done in some cases[9] but not in others. Former New York City Police Commissioner Raymond Kelly has publicly stated that Shomrim does not immediately notify police when a call comes in.[3][15] This was highlighted in the 2011 missing-child case of Leiby Kletzky (see below): the first call by Kletzky's mother reporting her missing child was received by Brooklyn South Shomrim more than two hours before Kletzky's father called the police.[13] The Brooklyn South Shomrim explains that it does not always notify police immediately in cases of missing children, since it receives at least 10 such calls a day and is experienced in quickly locating children by searching candy stores, buses, and relatives' homes.[7] In London, however, the Hackney Police Borough Commander Chief Superintendent Matthew Horne complimented Shomrim on this point, saying that "they will generally know when is the time to call us. They don't tend to waste our time and they don't let people go".[12] {{redundant|date=July 2019}} in June 2014 Stamford Hill Shomrim received a formal commendation award from the outgoing Hackney Police Borough Commander - Chief Superintendent Matthew Horne.[50][92] and on 12 June 2015 Shomrim volunteers were publicly commended[93] for their help in identifying two suspects who slashed tyres of lots of vehicles in Stamford Hill area.[94] Shomrim (neighborhood watch group) <> omerta blue wall of silence shaya lichtenberg leiby kletzky guardian angels curtis sliwa#controversy winstrol dragonnades animal farm#churchills loft dogs In August 2014, Stamford Hill

The Ket, numbering about 1000, are the only survivors today of those who originally lived throughout central southern Siberia near the river banks. Their extinct relatives included the Kotts, Assans, Arins, Baikots, and Pumpokols who lived further upriver to the south. The modern Ket lived in the eastern middle areas of the river before being assimilated politically into Russia during the 17th through 19th centuries.[16] During World War II, Nazi Germany and the Japanese Empire agreed to divide Asia along a line that followed the Yenisei River to the border of China, and then along the border of China and the Soviet Union.[20] 20. ^ Weinberg, Gerhard L. Visions of Victory: The Hopes of Eight World War II Leaders Cambridge, England, United Kingdom:2005--Cambridge University Press [1] Strangely, the earliest source of the story that during World War II, Nazi Germany and the Japanese Empire agreed to divide Asia along a line that followed the Yenisei River to the border of China, and then along the border of China and the Soviet Union dates to Cambridge in 2005.[20] The term "phase change thermosiphon" is a misnomer and should be avoided.[citation needed] When phase change occurs in a thermosiphon, it means that the system either does not have enough fluid, or it is too small to transfer all of the heat by convection alone. To improve the performance, either more fluid is needed (possibly in a larger thermosiphon), or all other fluids (including air) should be pumped out of the loop. The term "phase change thermosiphon" is a misnomer and should be avoided.[citation needed] When [[phase change]] occurs in a thermosiphon, it means that the system either does not have enough fluid, or it is too small to transfer all of the heat by convection alone. In modern times, the term has become more frequently used with regard to the rules of dress for women within Judaism.[1] The term would appear most indicative of Orthodox Judaism. Edward_VII#Death <> litvenenko skripal Edward became ill during January 1553 with a fever and cough that gradually worsened. The imperial ambassador, Jean Scheyfve, reported that "he suffers a good deal when the fever is upon him, especially from a difficulty in drawing his breath, which is due to the compression of the organs on the right side".[169] Edward felt well enough in early April to take the air in the park at Westminster and to move to Greenwich, but by the end of the month he had weakened again. By 7 May he was "much amended", and the royal doctors had no doubt of his recovery. A few days later the king was watching the ships on the Thames, sitting at his window.[170] However, he relapsed, and on 11 June Scheyfve, who had an informant in the king's household, reported that "the matter he ejects from his mouth is sometimes coloured a greenish yellow and black, sometimes pink, like the colour of blood".[171] Now his doctors believed he was suffering from "a suppurating tumour" of the lung and admitted that Edward's life was beyond recovery.[172] Soon, his legs became so swollen that he had to lie on his back, and he lost the strength to resist the disease. To his tutor John Cheke he whispered, "I am glad to die".[173] the finland arty gf The price paid for Sandringham, £220,000, has been described as "exorbitant".[22][23][c] This is questioned by Helen Walch, author of the estate's recent (2012) history, who shows the detailed analysis undertaken by the Prince Consort's advisers and suggests that the cost was reasonable.[17] The price paid for Sandringham, £220,000 has been described as exorbitant.[22][23][c] This is questioned by Helen Walch, author of the estate's recent (2012) history, who shows the detailed analysis undertaken by the Prince Consort's advisers and suggests that the cost was "reasonable." Once the stumps are [stump burning|cleared]] its not as cost effective. Slash-and-burn is typically a type of subsistence agriculture, not focused on a need to sell crops globally; planting decisions are governed by the needs of the family (or clan) for the coming year.[33] Slash-and-burn is typically a type of subsistence agriculture, not focused on a need to sell crops globally; planting decisions are governed by the needs of the family (or clan) for the coming year.[33] Later reports have claimed palm oil plantations caused a lot of the mid to late 2010s 'hazes' Human overpopulation (or population overshoot) is when there are too many people for the environment to sustain (with food, drinkable water, breathable air, etc.). In more scientific terms, there is overshoot when the ecological footprint of a human population in a geographical area exceeds that place's carrying capacity, damaging the environment faster than nature can repair it, potentially leading to an ecological and societal collapse. Overpopulation could apply to the population of a specific region, or to world population as a whole.[1] Human overpopulation (or population overshoot) is when there are too many people for the environment to sustain (with food, drinkable water, breathable air, etc.). In more scientific terms, there is overshoot when the ecological footprint of a human population in a geographical area exceeds that place's carrying capacity, damaging the environment faster than nature can repair it, potentially leading to an ecological and societal collapse. Overpopulation could apply to the population of a specific region, or to world population as a whole.[1] By definition when the carrying capacity is reached there is no capacity to carry any more individuals, regardless of damage. Overpopulation can result from an increase in births, a decline in mortality rates, an increase in immigration, or an unsustainable biome and depletion of resources. It is possible for very sparsely populated areas to be overpopulated if the area has a meagre or non-existent capability to sustain life (e.g. a desert). Overpopulation can result from an increase in births, a decline in mortality rates, an increase in immigration, or an unsustainable biome and depletion of resources. It is possible for very sparsely populated areas to be overpopulated if the area has a meagre or non-existent capability to sustain life (e.g. a desert). The most common cause is intentional mismanagement, ie tax farming forced immigration of subject people -type practices. A classical example is the bussing of 'homeless' blamed on rajneesh in oregon. Another common cause is wars. Advocates of population moderation cite issues like exceeding the Earth's carrying capacity, global warming, potential or imminent ecological collapse, impact on quality of life, and risk of mass starvation or even extinction as a basis to argue for population decline. Advocates of population moderation cite issues like exceeding the

Korotayev and Turchin have explored mathematically what the dynamical patterns of interaction between population and warfare (focusing on internal warfare) might be in both stateless and state societies. Next, they have tested the model predictions in several empirical case studies: early modern England, Han and Tang China, and the Roman Empire. Their empirical results have supported the population-warfare theory: that there is a tendency for population numbers and internal warfare intensity to oscillate with the same period but shifted in phase (with warfare peaks following population peaks). Population and warfare are dynamical variables, and if their interaction causes sustained oscillations, then we do not in general expect to find strong correlation between the two variables measured at the same time (that is, unlagged). Korotayev and Turchin have explored mathematically what the dynamical patterns of interaction between population and warfare (focusing on internal warfare) might be in both stateless and state societies. Next, they have tested the model predictions in several empirical case studies: early modern England, Han and Tang China, and the Roman Empire. Their empirical results have supported the population-warfare theory: that there is a tendency for population numbers and internal warfare intensity to oscillate with the same period but shifted in phase (with warfare peaks following population peaks; literally lack of growth equals death). Population and warfare are dynamical variables, and if their interaction causes sustained oscillations, then we do not in general expect to find strong correlation between the two variables measured at the same time (that is, unlagged). Korotayev and Turchin have explored mathematically what the dynamical patterns of interaction between population and warfare (focusing on internal warfare) might be in both stateless and state societies. Next, they have tested the model predictions in several empirical case studies: early modern England, Han and Tang China, and the Roman Empire. Their empirical results have supported the population-warfare theory: that there is a tendency for population numbers and internal warfare intensity to oscillate with the same period but shifted in phase (with warfare peaks following population peaks; literally lack of growth equals death). hence it is not population growth which causes warfare, but the 'moderating' poisons (or likely [[opportunism]] being [[history of legal impunity|above the law]] to employ) such measures engender. notably the thing where you get enough people to recruit usually involving like the mohi jailing and killing parents to steal the kids and then they send em somewhere to do a isis or similar e gruppy they kill the parents and ethicists to get the kids and loft dog em send em somewhere to get some resource or something and the people there promise the rest of the world half cause its better than nothing if they can rid em of the invader probably you can correlate the wars to steroid yam farming and production spartan black soup and that kind of thing (with warfare peaks following population peaks). population rate of change is negatively affected by warfare intensity, - which is it 'spartan black soup,' 'black drank' and that kind of thing probably you can correlate the death and war with small group tries to get a usurious hoard of resources over the larger group. probably works at first until the low hanging fruit is picked. with the nazzies you have a new model and it might just be first documeted you have the world trying to put military spending into quality of life and someone jumps the gun ramps up and start attacking everybody works for a couple of years but while youre stuck on the first everyone shifts production the important thing to note there is when they put a stop to the outbreak the diverted funding is coming out of somebodys ass. altho they certainly keep the steroids coming dont they if you pick the hypo youre supplied with it for as long as your alive and free automobiles and airplanes apparently currently the mufflers are obviously unaffordable tho Intensive factory farming to support large populations. [57] In the 1970s the American news media began using the word "Moonie" to refer to Unification Church members.[50][51][52] This was widely considered to be derogatory.[53][54] In the 1980s and 1990s the church undertook an extensive public relations campaign against the use of the word by the news media.[55] In 1989 the Chicago Tribune was picketed after referring to members as "Moonies".[56][57] Minister and civil rights leader James Bevel handed out fliers at the protest which said: "Are the Moonies our new niggers?" Jones stated to the Transportation Corridor Agencies (TCA), who operates the toll roads in Orange County, "Frankly, my preference is that the proposed toll road not be constructed on or near Camp Pendleton. This construction is one more encroachment venture that will hinder [our] ability to prepare for war. It will also result in additional losses of natural areas that support endangered species, thus placing an even greater burden on Camp Pendleton to protect the region's biodiversity." [14] In 2008, after the rejection of the proposed toll road extension of SR 241 through San Onofre State Beach Park for environmental reasons, the TCA filed for permission to build on the northwestern portion of the base. A spokesman for Camp Pendleton denied the request in 2010, stating that they could only allow the toll road to run through the San Onofre State Beach Park because their training missions could not be completed without the proposed land. In fact, the California gnatcatcher, an endangered species, resides on the northwestern portion of the base. [15] The TCA funded a study in 2013 to remove the California gnatcatcher from the endangered species list, which would have made it easier to negotiate the construction and planning of the 241's extension through the San Onofre State Beach Park. Tax farming was an important step in the history of economic development by providing a method for
collecting taxes across a large area without the need for a tax-collecting bureaucracy, or during periods when
such a bureaucracy is unworkable or impossible to maintain. Systems of tax farming similar to the Roman
model were used in Ptolemaic Egypt, various medieval Western European countries, the Ottoman and Mughal
empires, and in Qing Dynasty China. As states become stronger, buoyed up by revenues brought in by tax
farming, the practice was discontinued in favour of centralized tax collection systems. In part this was
because tax farming systems tended to rely on wealthy individuals outside the state machinery, gangs, and
secret societies.[10] Tax farming was an important step in the history of economic development by providing

It inhabits humid lowland rainforests from Nicaragua and the extreme east of Honduras and south to Paraguay. The SaterÃ©-MawÃ© people of Brazil use intentional bullet ant stings as part of their initiation rites to become warriors.[30] The ants are first rendered unconscious by submerging them in a natural sedative, and then 80 of them are woven into gloves made of leaves (which resembles a large oven mitt), stingers facing inward. When the ants regain consciousness, a boy slips the gloves onto his hands. The goal of this initiation rite is to keep the glove on for a full five minutes. When finished, the boy's hand and part of his arm are temporarily paralyzed because of the ant venom, and he may shake uncontrollably for days. The only "protection" provided is a coating of charcoal on the hands, supposedly to confuse the ants and inhibit their stinging. To fully complete the initiation, however, the boys must go through the ordeal 20 times over the course of several months or even years.[31] The SaterÃ©-MawÃ© people of Brazil use intentional bullet ant stings as part of their initiation rites to become warriors. Crack can be a lower purity form of free-base cocaine but also a wide range of other substances that would ideally be producible by freeing it of the hydrochloride or other salts and impurities and returning it to the original basic form in which it was produced by the plant with a base; typically a solution of baking soda (sodium bicarbonate, NaHCO3) and water, producing a mohs hardness between clay and reaching a relatively ready cleaving state of off-white-to-brown colored, amorphous material that contains sodium carbonate, entrapped water, and other by-products as the main impurities. In contrast, cocaine hydrochloride does not vaporize until heated to a much

higher temperatures. This effectively destroys some of the cocaine and yields a sharp, acrid, and foul-tasting smoke. In contrast, cocaine hydrochloride does not vaporize until heated to a much higher temperature (about 197Â°C), and considerable decomposition/burning occurs at these high temperatures. This effectively destroys some of the cocaine and yields a sharp, acrid, and foul-tasting smoke and an unpleasant, catnip-like feeling. Smoking or vaporizing cocaine and inhaling it into the lungs produces an almost immediate "high" that can be very powerful (and addicting) quite rapidly – this initial crescendo of stimulation is known as a "rush". While the stimulating effects may last for hours, the euphoric sensation is very brief, prompting the user to smoke more immediately. Smoking or vaporizing cocaine and inhaling it into the lungs produces an almost immediate "high" that can be very powerful (and allegedly "psychologically addicting") reportedly faster than other routes of ingestion – this initial crescendo of stimulation is known as a "rush". While the stimulating effects may last longer, when the 'euphoric sensation is very brief, prompting the user to smoke more immediately' some sort of [sham] substance is the culprit. {further|milking the cow|bait and switch|country hell} country hell <> boor boorish ugandan expulsion south african expulsion of apartheid rhodesian expulsion steroid sales tactics classical [[Austerity|A]] [[Bonded warehouse|B]] [[Export economy|E]] scenario salt tax farm the alleged mafia guy towards canada that would kill you if you said anything about the stuff they were hijacking trucks and replacing the stuff with being lower quality Coca leaf infusions {further|collard liquor} In Peru, the National Coca Company, a state-run corporation, sells cocaine-infused teas and other medicinal products and also exports leaves to the U.S. for medicinal use.[80] empex or whatever the hell it is enaco Usage is particularly prevalent among this demographic: 4% to 7% of males have used cocaine in the last year in Spain, Denmark, Republic of Ireland, Italy, and the United Kingdom. The ratio of male to female users is approximately 3.8:1, but this statistic varies from 1:1 to 13:1 depending on country.[99] Usage is particularly prevalent among this demographic: 4% to 7% of males have used cocaine in the last year in Spain, Denmark, Republic of Ireland, Italy, and the United Kingdom. The ratio of male to female users is approximately 3.8:1, but this statistic varies from 1:1 to 13:1 depending on country.[99] An alaska corrections study of early 2000s (before the so-called "heroin epidemic and coincidental "crime wave") found a female to male use ratio of 3 to 1 When the Spanish arrived in South America, most at first ignored aboriginal claims that the leaf gave them strength and energy, and declared the practice of chewing it the work of the Devil.[106] But after discovering that these claims were true, they legalized and taxed the leaf, taking 10% off the value of each crop.[107] When the Spanish arrived in South America, most at first ignored aboriginal claims that the leaf gave them strength and energy, and declared the practice of chewing it the work of the Devil.[106]{{better source needed|date=August 2019}} But after discovering that these claims were true, they legalized and taxed the leaf, taking 10% off the value of each crop.[107]{{Update inline|reason=Does this still hold after so many years?|?=yes|date=August 2019}} Because of its use as a local anesthetic, a suffix "-caine" was later extracted and used to form names of synthetic local anesthetics. Because of its use as a local anesthetic, a suffix "-caine" was later extracted and used to form names of synthetic local anesthetics.{{sic}} During the mid-1940s, amidst World War II, cocaine was considered for inclusion as an ingredient of a future generation of 'pep pills' for the German military, code named D-IX.[123] During the mid-1940s, amidst World War II, cocaine was considered for inclusion as an ingredient of a future generation of 'pep pills' for the German military, code named D-IX.[123] submarine pills 4-2-1 ? In many countries, cocaine is a popular recreational drug. In the United States, the development of "crack" cocaine introduced the substance to a generally poorer inner-city market. Use of the powder form has stayed relatively constant, experiencing a new height of use during the late 1990s and early 2000s in the U.S., and has become much more popular in the last few years in the UK.[citation needed][when?] since they stopped them counterfeiting the quid 50 ? There is a tremendous demand for cocaine in the U.S. market, particularly among those who are making incomes affording luxury spending, such as single adults and professionals with discretionary income. Cocaine's status as a club drug shows its immense popularity among the "party crowd". [citation needed] There is a tremendous demand for cocaine in the U.S. market, particularly among those who are making incomes affording luxury spending, such as single adults and professionals with discretionary income. Cocaine's status as a club drug shows its immense popularity among the "party crowd".[citation needed] The supply has been pretty much zero since 06; a new wave of people that like to gloat that 'thats the wrong stuff' appear to have taken the reigns. The adulterant of sugars allows the dealer to sell the product for a higher price because of the illusion of purity and allows sale of more of the product at that higher price, enabling dealers to significantly increase revenue with little additional cost for the adulterants. The adulterant of sugars would allow the dealer to sell the product for a higher price because of the illusion of purity and allows sale of more of the product at that higher price, enabling dealers to significantly increase revenue with little additional cost for the adulterants if it werent for the fact that sick people make less money and thus have less money to spend - a more likely explanation is the introduction of the sellers market and oHMOCare pivot to fake heroin. The Harrison Act did not recognize addiction as a treatable condition and therefore the therapeutic use of cocaine, heroin or morphine to such individuals was outlawed – leading a 1915 editorial in the journal American Medicine to remark that the addict "is denied the medical care he urgently needs, open, above-board sources from which he formerly obtained his drug supply are closed to him, and he is driven to the underworld where he can get his drug, but of course, surreptitiously and in violation of the law." [139] The Harrison Act did not recognize addiction as a treatable condition and therefore the therapeutic use of cocaine, heroin or morphine to such individuals was outlawed – leading a 1915 editorial in the journal American Medicine to remark that the addict{{editorializing|date=August 2019}} "is denied the medical care he urgently needs, open, above-board sources from which he formerly obtained his drug supply are closed to him, and he is driven to the underworld where he can get his drug, but of course, surreptitiously and in violation of the law." [139] Because of the drug's potential for addiction and overdose, cocaine is generally treated as a "hard drug", with severe penalties for possession and trafficking. Demand remains high, and consequently, black market cocaine is quite expensive. Because of the drug's potential for addiction and overdose, cocaine is generally treated as a "hard drug", with severe penalties for possession and trafficking. Demand remains high, and consequently, black market cocaine is quite expensive yet far, far cheaper than legal sources like sigma-aldrich (\$12,000 dollars a gram as of 2013; if it is available at all) Colombia is as of 2019 the world's largest cocaine producer, with production more than tripling since 2013.[142][143] Colombia is as of 2019 the world's largest cocaine producer, with production more than tripling since 2013.[142][143] apparently none of which gets to the states Colombia is as of 2019 the

world's largest producer of cocaine, with production more than tripling since 2013.[142][143] Three-quarters of the world's annual yield of cocaine has been produced in Colombia, both from cocaine base imported from Peru (primarily the Huallaga Valley) and Bolivia, and from locally grown coca. There was a 28% increase from the amount of potentially harvestable coca plants which were grown in Colombia in 1998. This, combined with crop reductions in Bolivia and Peru, made Colombia the nation with the largest area of coca under cultivation after the mid-1990s. Coca grown for traditional purposes by indigenous communities, a use which is still present and is permitted by Colombian laws, only makes up a small fragment of total coca production, most of which is used for the illegal drug trade.[citation needed] Colombia is as of 2019 the world's largest cocaine producer, with production more than tripling since 2013.[142][143] Three-quarters of the world's annual yield of cocaine has been produced in Colombia, both from cocaine base imported from Peru (primarily the Huallaga Valley) and Bolivia, and from locally grown coca. There was a 28% increase from the amount of potentially harvestable coca plants which were grown in Colombia in 1998. This, combined with crop reductions in Bolivia and Peru, made Colombia the nation with the largest area of coca under cultivation after the mid-1990s. Coca grown for traditional purposes by indigenous communities, a use which is still present and is permitted by Colombian laws, only makes up a small fragment of total coca production, most of which is used for the illegal drug trade,[citation needed] thus disproving the trope that it leads to violence, of which now honduras, guatemala and greenland are the world leaders. Attempts to eradicate coca fields through the use of defoliants have devastated part of the farming economy in some coca growing regions of Colombia, and strains appear to have been developed that are more resistant or immune to their use. Whether these strains are natural mutations or the product of human tampering is unclear. These strains have also shown to be more potent than those previously grown, increasing profits for the drug cartels responsible for the exporting of cocaine. Although production fell temporarily, coca crops rebounded in numerous smaller fields in Colombia, rather than the larger plantations.[citation needed] Attempts to eradicate coca fields through the use of defoliants have devastated part of the farming economy in some coca growing regions of Colombia, and strains appear to have been developed that are more resistant or immune to their use. Attrition warfare is a military strategy consisting of belligerent attempts to win a war by wearing down the enemy to the point of collapse through continuous losses in personnel and material. The war will usually be won by the side with greater such resources.[1] The word attrition comes from the Latin root atterere to rub against, similar to the "grinding down" of the opponent's forces in attrition warfare.[2] Attrition warfare is a military strategy consisting of belligerent attempts to win a war by wearing down the enemy to the point of collapse through continuous losses in personnel and material. The war will usually be won by the side with greater such resources.[1] The word attrition comes from the Latin root atterere to rub against, similar to the "grinding down" of the opponent's forces in attrition warfare.[2] In se asia it was defined as the attempt to kill more of the north's forces every year than they could recruit; the failure to achieve this [[military objective]] is commonly credited with the withdrawal of ground and air forces in 70 and 75 respectively (including in- 68 ? [[thailand]]) Sun Tzu has stated "There is no instance of a nation benefitting from prolonged warfare" It is often argued that the best-known example of attrition warfare was on the Western Front during World War I. [3] 3. ^ Kaye, C.A. 1957. "Military Geology in the United States Sector of the European Theater of Operations during World War II". Bulletin of the Geological Society of America 68(1): 47-54, 1 fig. It is often argued that the best-known example of attrition warfare was on the Western Front during World War I.[3]{{Update inline|reason=Does this still hold after so many years?|?=yes|date=August 2019}} One of the most enduring examples of attrition warfare on the Western Front is the Battle of Verdun, which took place throughout most of 1916. Erich von Falkenhayn later claimed that his tactics at Verdun were designed not to take the city but rather to destroy the French Army in its defense. Falkenhayn is described as wanting to "bleed France white" [5] and thus the attrition tactics were employed in the battle. The academy bases a cadet's leadership experience as a development of all four pillars of performance: academics, character, physical, and military. The academic program grants a bachelor of science degree with a curriculum that grades cadets' performance upon a broad academic program, military leadership performance, and mandatory participation in competitive athletics. Cadets are required to adhere to the Cadet Honor Code, which states that "a cadet will not lie, cheat, steal, or tolerate those who do." The academy bases a cadet's leadership experience as a development of all four pillars of performance: academics, character, physical, and military. {{Citation needed|date=August 2019}} Some Pichia species (e.g. P. ohmeri) have recently been clinically been proven to be pathogens, better known as so-called opportunistic pathogens [2] in immunocompromised humans. Hannah Schwab, hannah.schwab@tcpalm.com STUART, Fla. â€” Billionaire equity firm owner John Childs is one of several men accused of soliciting prostitution in connection with a Florida spa tied to an international human trafficking ring, police said Thursday. hey what the fuck melman https://en.wikipedia.org/wiki/John_W._Childs In February 2019, Childs was charged with solicitation of prostitution in connection with a police investigation into Florida massage parlors. Childs said "The accusation of solicitation of prostitution is totally false. I have retained a lawyer." [4][5] After being charged soliciting prostitution, he has stepped down as chairman of J.W. Childs Associates.[6] ah Batroxobin, also known as reptilase, is a snake venom enzyme with Venombin A activity produced by Bothrops atrox and Bothrops moojeni, venomous species of pit viper found east of the Andes in South America. It is a hemotoxin which acts as a serine protease similarly to thrombin, and has been the subject of many medical studies as a replacement of thrombin. Different enzymes, isolated from different species of Bothrops, have been called batroxobin, but unless stated otherwise, this article covers the batroxobin produced by B.Â moojeni, as this is the most studied variety. Architectural historians and scholars consider that a style must be assessed as an integral whole rather than an aggregate of features, and while some include these developments within the Norman or Romanesque styles, others describe them as transitional or "Normanâ€“Gothic Transitional". A few websites use the term "Norman Gothic", but it is unclear whether they refer to the transitional style or to the Norman style as a whole.[9][10] As master masons developed the style and experimented with ways of overcoming the geometric difficulties of groin vaulted ceilings, they introduced features such as the pointed arch that were later characterised as being Gothic (also [[Tudor arch|Tudor]]) in style. Architectural historians and scholars consider that a style must be assessed as an integral whole rather than an aggregate of features, and while some include these developments within the Norman or Romanesque styles, others describe them as transitional or "Normanâ€“Gothic Transitional". A few websites use the term "Norman Gothic", but it is unclear whether they refer to the transitional style or to the Norman style as a whole.[9][10] If Normans were Vikings who settled in Normandy and Vikings spoke Germanic languages and Goths were Germanic then the Norman, if not necessarily romaneseque, style would also be a Gothic one. If assesment as whole rather than aggregate is stipulated than the romaneseque incorporations could not be considered norman style. The first was a 12-year-old boy suspected of shooting an 18-year-old and another juvenile boy Sunday night in woods off Chester Creek Trail. Both victims suffered multiple gunshot wounds and police say the 18-year-old, identified as Thomas Williams, died. <> first west point point williams lindberg baby canada murdermander williams child rights betty williams first west point point williams#lindberg baby ? opioid crisis <> masturbation induced blindness controversy#endorphin This relation has been perceived as a classic honey trap operation whereby an intelligence agent employs seduction to gain the target's trustâ€“a practice which has been officially sanctioned in Israel.[54][55][56] {{unblock|reason=Your reason here ~~~~}} {{unblock|reason=I believe it is unfair, have put right whatever was the problem and can show and have shown that I won't make those again - as a note to any other admin my entire sandbox of edits and a substantial portion of my edit history appeared to have been oversights so I dont know how accurate that is - also suspect katie knows me personally and is pursuing a very old vendetta which I believe I could prove if it wasnt for the outing regs.
